Charter Schools Joe Nathan, 1999-01-07 One of the best books on schools and schooling to cross our editors' desks this year The American School Board Journal August 1997 Award winning former public school educator Joe Nathan draws from nationwide surveys, research and visits to dozens of charter schools to address key questions about charter schools Who starts these schools What kinds of students attend And Are charter schools using ideas and techniques from which other schools can learn Are these schools actually helping students Are charter schools making an impact on the larger educational system

*Hope Against Hope* Sarah Carr, 2013-02-26 Gerald Lynn is a lively, astute 14 year old Her family displaced by Hurricane Katrina returns home to find a radically altered public education system Gerald Lynns parents hope their daughter's new school will prepare her for college but the teenager has ideals and ambitions of her own Aidan is a fresh faced Harvard grad drawn to New Orleans by the possibility of bringing change to a flood ravaged city He teaches at an ambitious charter school with a group of newcomers determined to show the world they can use science, data and hard work to build a model school Mary Laurie is a veteran educator who becomes principal of one of the first public high schools to reopen after Katrina Laurie and her staff find they must fight each day not only to educate the city's teenagers but to keep the Walker community safe and whole In this powerful narrative non fiction debut the lives of these three characters provide readers with a vivid and sobering portrait of education in twenty first century America *Hope Against Hope* works in the same tradition as *Random Family* and *There Are No Children Here* to capture the challenges of growing up and learning in a troubled world

**Schools of Hope** Terry Wrigley, 2003 Is education about meeting new targets whether they be in mathematics or management Or is it about developing socially responsible, creative and enthusiastic learners Terry Wrigley excoriates current thinking and offers a new vision of school development with inspiring examples from around the world Schools of Hope Douglas H. Heath, 1994-02-22 A significant contribution to educational reform literature It offers an insightful research based analysis of the problems in education and a compelling vision for change *Schools of Hope* will stand with the best works of Ernest Boyer, Ted Sizer and John Goodlad Gary M Doyle, deputy superintendent Bloomfield Hills Schools *Schools of Hope* proposes specific principles for creating classrooms that educate both the minds and hearts of today's students teaching them to be reflective and self educating Charter Schools Jack Buckley, Mark Schneider, 2009-07-13 Over the past several years privately run, publicly funded charter schools have been sold to the American public as an education alternative promising better student achievement, greater parent satisfaction and more vibrant school communities But are charter schools delivering on their promise Or are they just hype as critics contend a costly experiment that is bleeding tax dollars from public schools In this book Jack Buckley and Mark Schneider tackle these questions about one of the thorniest policy reforms in the nation today Using an exceptionally rigorous research approach the authors investigate charter schools in Washington D C carefully examining school data going back more than a decade interpreting scores of interviews with

parents students and teachers and meticulously measuring how charter schools perform compared to traditional public schools Their conclusions are sobering Buckley and Schneider show that charter school students are not outperforming students in traditional public schools that the quality of charter school education varies widely from school to school and that parent enthusiasm for charter schools starts out strong but fades over time And they argue that while charter schools may meet the most basic test of sound public policy they do no harm the evidence suggests they all too often fall short of advocates claims With the future of charter schools and perhaps public education as a whole hanging in the balance this book supports the case for holding charter schools more accountable and brings us considerably nearer to resolving this contentious debate

**Race, Schools, & Hope** Lisa M. Stulberg, 2008 How can school choice be a form of both giving up on public education and a form of hope and faith in American schooling This book helps us to make sense of why and how African Americans participate in and lead school choice reforms The author argues that regardless of the success or failure of these reforms they represent an important political phenomenon in American schooling and in African American history and politics The first section of the book focuses on African American school choice in the post Brown period examining how these reforms became a response to desegregation politics and policies The second section focuses on the author s experience as a co founder of a charter school in Oakland California at a time when Oakland s public schools were found to be severely under serving African American students
