School Corruption Armand Fusco,2005-09 School Corruption Betrayal of Children and the Public Trust is an expos of corruption in public schools and related agencies It shatters the complacency and silence of the pervasive corruption found in school districts throughout the Nation Dr Armand A Fusco provides a detailed look at the rationale for the three levels of corrupt acts cheating and deceit waste and mismanagement and fraud and stealing Find out how and where shameful and deplorable corrupt acts have been committed in each state and school district as Fusco delves into some tough questions Why does corruption and political correctness lead to poor student achievement disgraceful school outcomes and failing schools How does inept school governance allow corruption to flourish with such ease What is the most important question that is never asked of an applicant for superintendent of schools The harsh reality is that corruption has become a natural part of the educational landscape but it s hidden from view by walls of denial and self protection Only by accepting the challenge of a new beginning can trust be restored so that the devastating impact of corrupt acts on the education of children and the violation of the public trust will become a thing of the past

Permanent Exclusion from School and Institutional Prejudice Anna Carlile,2013-02-11 Permanent exclusion from school and institutional prejudice Creating change through critical bureaucracy Anna Carlile This book tells the story of permanent exclusion from school from within an urban children s services department It focuses on two areas what contributes to instances of permanent exclusion from school and what the effects are of its existence as a disciplinary option The book questions how and why local government officers make particular decisions about children and young people Rather than focussing on what children and young people did behaviourally to get excluded the book adopts a Foucauldian analysis to concentrate on their place within a larger policy community which includes professionals and policy makers It adopts a critical bureaucratic exercise in studying up on powerful organisations an informed approach to ameliorating social inequity The findings described here suggest a broad deep and opaque seam of institutional prejudice permanent exclusion from school can be understood to be both caused by this and to intensify its effects This has implications for the voices of young people subject to or at risk of permanent exclusion from school and the final chapter outlines a Foucauldian Freirian student voice project offering ideas about how schools might tackle this
