*Schopenhauer on the Character of the World* John E. Atwell, 2023-04-28 The most extensive English language study of Schopenhauer's metaphysics of the will yet published this book represents a major contribution to Schopenhauer scholarship Here John E Atwell critically but sympathetically examines the philosopher's main work *The World as Will and Representation* demonstrating that the philosophical system it puts forth does constitute a consistent whole The author holds that this system is centered on a single thought The world is self knowledge of the will He then traces this unifying concept through the four books of *The World as Will and Representation* and in the process dissolves the work's alleged inconsistencies The most extensive English language study of Schopenhauer's metaphysics of the will yet published this book represents a major contribution to Schopenhauer scholarship Here John E Atwell critically but sympathetically examines the philosopher's main work

struggles and intellectual isolation which profoundly shaped his worldview and writing His pessimistic outlook rooted in the belief that suffering is inherent to existence drives the themes of this work His rejection of prevailing ideals of optimism in society positioned Schopenhauer as a precursor to existential thought capturing the complexities of human experience with compassion and insight *The World as Will and Idea* is essential reading for anyone seeking to grapple with the darker aspects of human existence and the motivations that govern our lives Schopenhauer's eloquence invites readers to reflect deeply on their own experiences of desire suffering and the quest for understanding challenging them to uncover the deeper will that resides within
