## Sci Fi Western:

**Sci-fi Western** Sunny Buick, 2002 Cowpokes with ray guns Science fiction and westerns come together in this book documenting the first ever art show devoted to this novel mix of past and future fantasies Editor Sunny Buick has collected the best of this fantastical hybrid in this lavishly illustrated book which features 150 artists from around the world Introduction by John Clute      *Weird Westerns* Kerry Fine, Michael K. Johnson, Rebecca M. Lush, Sara L. Spurgeon, 2020-08 *Weird Westerns* is an exploration of the hybrid genre of the weird western analyzing movies TV shows and comic books such as *Django Unchained* *The Walking Dead* and *Wynonna Earp*      *Wilderness Visions* David Mogen, 1982      **The Science Fiction of Poetics and the Avant-Garde Imagination** Michael Golston, 2023-11-19 How the tropes of science fiction infuse and inform avant garde poetics and many other kindred arts This insightful playful monograph from Golston does exactly what it advertises modeling poetics based on how poetry and some parallel artistic endeavors has filtered through a century plus of science fiction This is not a book about science fiction in and of itself but it is a book about the resonances of science fiction tropes and ideas in poetic language The germ of Golston's project is a throwaway line in Robert Smithson's *Entropy* and the *New Monuments* about how cinema supplanted nature as inspiration for many of his fellow artists The movies give a ritual pattern to the lives of many artists and this induces a kind of low budget mysticism which keeps them in a perpetual trance Golston charts how the demotic appeal of sci fi much like that of the B movie cross pollinated into poetry and other branches of the avant garde Golston creates what he calls a regular Rube Goldberg machine of a critical apparatus drawing on Walter Benjamin Roman Jakobson and Gilles Deleuze He starts by acknowledging that per the important work of Darko Suvin to situate science fiction critically the genre is premised on cognitive estrangement But he is not interested in the specific nuts and bolts of science fiction as it exists but rather how science fiction has created a model not only for other poets but also for musicians and landscape artists Golston's critical lens moves around quite a bit but he begins with familiar enough subjects Edgar Rice Burroughs Mina Loy William S Burroughs From there he moves into more alien terrain Ed Dorn's long poem *Gunslinger* the discombobulated work of Clark Coolidge Sun Ra Ornette Coleman and Jimi Hendrix all come under consideration The result of Golston's restless rich scholarship is the first substantial monograph on science fiction and avant garde poetics using Russian Formalism Frankfurt School dialectics and Deleuzian theory to show how the avant garde inherently follows the parameters of sci fi in both theme and form      **The Twenty-First-Century Western** Douglas Brode, Shea T. Brode, 2019-12-12 Focusing on twenty first century Western films including all major releases since the turn of the century the essays in this volume cover a broad range of aesthetic and thematic aspects explored in these films including gender and race As diverse contributors focus on the individual subgenres of the traditional Western the gunfighter the Cavalry vs Native American conflict the role of women in Westerns etc they share an understanding of the twenty first century Western may be understood as a genre in itself They argue that the films discussed here reimagine certain aspects of

the more conventional Western and often reverse the ideology contained within them while employing certain forms and clichés that have become synonymous internationally with Westerns The result is a contemporary sensibility that might be referred to as the postmodern Western
