**Modern Science in the Bible** Ben Hobrunk, 2011-02-08 Modern Science in the Bible shows that the Bible is not out of date but that it was in fact thousands of years ahead of science when it was written Used as a reference tool or merely to underline the trustworthiness of the Bible this book succinctly demonstrates hard scientific facts from the Bible that modern science has only recently discovered Ben Hobrunk although a biologist writes in layman s terms to describe current scientific debates and shows where scientific theories or conclusions differ from the Bible and offers explanations of the alleged differences In Modern Science in the Bible Hobrunk not only defends the Bible he lets others share his astonishment about the relevance of biblical rules The book underlines the reliability of the Bible in the field of science and presents hard scientific facts that are structured around themes such as combating epidemics hygiene nutrition and evolution **The**

Leach, 2014-10-02 The author has been a Christian since his youth Upon discovering a love for science in grade school he pursued that interest throughout his entire life Sadly he found disagreement and conflict between the Christian only and

Science only viewpoints Since he was both a Christian and a scientist he had to resolve in his mind these differences for his own spiritual and scientific well being For more than sixty years he has carefully formulated the words and concepts in this book that he hopes and prays will help others reach an understanding that both the Bible and the discoveries in science are true and reconcilable God does not lie to us or mislead us God is responsible for both His Bible and His Creation Thus any conflicts we find in the study of these two revelations from God result from our inability to interpret and understand properly either one or the other or some of each To more fully understand God one must study both Gods words the Bible and the scientific discoveries of the footprints and fingerprints He left during the creation process that we are now able to find and interpret We must correlate His words and His works to more fully understand Him We must always be aware that our first impressions may not be entirely correct and that we must always continue to compare all our findings and interpretations with each other in an effort to seek and achieve the greater truth
