An Introduction to the Psychology of Paranormal Belief and Experience Tony Jinks,2011-11-08 When someone admits to a strange experience such as witnessing an unidentified flying object having telepathic hunches or seeing angels or ghosts listeners usually explain it away as mistaken perception intoxication ignorance or even mental illness Though these unsympathetic psychology based explanations remain the most popular responses to claims of the supernatural those who use them often have little understanding of what such dismissive solutions actually entail This study offers a balanced and accessible analysis of various explanations for the paranormal By providing insight into how these theories are applied or misapplied to inquiry into the paranormal it clarifies the relationship between the field of psychology and the supernatural Instructors considering this book for use in a course may request an examination copy here

The Oxford Handbook of Atheism Stephen Bullivant,Michael Ruse,2013-11-21 Recent books by among others Sam Harris Richard Dawkins and Christopher Hitchens have thrust atheism firmly into the popular media and academic spotlight This so called New Atheism is arguably the most striking development in western socio religious culture of the past decade or more As such it has spurred fertile and often heated discussions both within and between a diverse range of disciplines Yet atheism and the New Atheism are by no

means so extensive Interesting though it indeed is the New Atheism is a single historically and culturally specific manifestation of positive atheism the that there is are no God s which is itself but one form of a far deeper broader and more significant global phenomenon The Oxford Handbook of Atheism is a pioneering edited volume exploring atheism understood in the broad sense of an absence of belief in the existence of a God or gods in all the richness and diversity of its historical and contemporary expressions Bringing together an international team of established and emerging scholars it probes the varied manifestations and implications of unbelief from an array of disciplinary perspectives philosophy history sociology anthropology demography psychology natural sciences gender and sexuality studies literary criticism film studies musicology and in a range of global contexts Western Europe North America post communist Europe the Islamic world Japan India Both surveying and synthesizing previous work and presenting the major fruits of innovative recent research the handbook is set to be a landmark text for the study of atheism
