**The Fabulist Play Cycle: A radio play collection** Hugh A. D. Spencer,2023-11-24 For the first time

in print Spencer's radio plays *Amazing Struggles*, *Astonishing Failures* and *Disappointing Success* together with the follow up four part audio drama *Cult Stories* tell the tales of disillusioned science fiction writers over the course of the mid 20th century. **AMAZING STRUGGLES** In the Golden Age of science fiction a group of aspiring young authors the Fabulists is ready to wow the world with tales of interplanetary heroism and technological supremacy. **ASTONISHING FAILURES** Unfortunately their dreams of fame and fortune are consistently dashed by the dastardly rejections of the compulsively conservative and out of touch editor of *Tremendous Stories of Super Science*. **DISAPPOINTING SUCCESS PARTS I II** While some of the Fabulists see middling success as teachers and television writers another becomes a science fiction mega star whose writing and the author's own pathology spawns a cult religion with wild ideas that may be a bit less bogus than his short stories. **CULT STORIES** And like an artistic pandemic some forms of science fiction can get very ugly. Only extreme measures will save us. Virtually every line is written to amuse and amaze yet it's bang on accurate in its overall account of the actuality of the decade. A lot of thought went into noting the humour inherent in the activities and pretensions of First Fandom. *Amazing Stories* A delightfully cracked and deeply savvy romp through the history of science fiction and perforce our world all told through two quartets of scripts for radio plays. You'll meet real people thinly veiled characters and even fully dressed folk you never heard of in this mind's ear theater that could have appeared in *Mad Magazine*. What me worry. No but I'd love to hear these scripts enacted in a podcast. Paul Levinson author of *It's Real Life* award winning alternate history radio play.

Science-fiction Everett Franklin Bleiler, Richard Bleiler, 1998 *Complementing Science Fiction: The Early Years* which surveys science fiction published in book form from its beginnings through 1930 the present volume covers all the science fiction printed in the genre magazines *Amazing*, *Astounding* and *Wonder* along with offshoots and minor magazines from 1926 through 1936. This is the first time this historically important literary phenomenon which stands behind the enormous modern development of science fiction has been studied thoroughly and accurately. The heart of the book is a series of descriptions of all 1 835 stories published during this period plus bibliographic information. Supplementing this are many useful features: detailed histories of each of the magazines; an issue by issue roster of contents; a technical analysis of the art work; brief authors' biographies; poetry and letter indexes; a theme and motif index of approximately 30 000 entries; and general indexes. *Science Fiction: The Gernsback Years* is not only indispensable for reference librarians, collectors, readers and scholars interested in science fiction it is also of importance to the study of popular culture during the Great Depression in the United States. Most of its data which are largely based on rare and almost unobtainable sources are not available elsewhere. *Thirty Years to Life on Earth* Jeffrey Danhoff, 2005-08-26 Danhoff writes in a unique style combining prose, poetry and physics. The book is an experiment. He attempts to challenge man's complacency through social, political commentary and word play, free mind play. He succeeds in communicating his theme: intelligence, courage and morality. This is not an essay book to read. His thoughts merit consideration especially the more controversial ideas Danhoff intended to build

the basic foundation on the bedrock of prose decorated with the art of poetry topped off with theoretical temporal physics  
The author considers writing a learning experience and takes his responsibility as a writer very seriously Danhoff hopes  
readers will find his work entertaining educational and enlightening      Science Fiction Phil Hardy, 1991
