When the celebrated German philosopher Johann Gottlieb Fichte lost his position at the University of Jena and moved to Berlin it looked as if his career was over In 1799 Berlin had no university and Fichte was consigned to lecturing in his home In *Fichte in Berlin* Matthew Nini breaks with scholarly consensus arguing it was there that Fichte finally reached maturity and the only way to understand Fichte s mature philosophy is to perform it for oneself The book focuses on the philosopher s 1804 lectures on the *Wissenschaftslehre* an untranslatable neologism for his theories on the pursuit of insight claiming that they are one of the most exemplary versions of the philosophical project that Fichte reconfigured some seventeen times throughout his life While the 1804 lectures offer a more robust approach they remain faithful to the insight at the heart of the original philosophy Fichte s work always emphasized the practical over the theoretical and his 1804 work goes even further to think with Fichte is to bring one s own philosophy to life Nini guides the reader step by step through the complex arguments Fichte made in 1804 and goes on to examine some of his other works produced in their wake arguing that Fichte s output from 1804 to 1806 his first Berlin period forms an organic whole *Fichte in Berlin* is not only an introduction to Fichte s later philosophy but also an original philosophical work that makes a unique contribution to the study of German Idealism *The law of eternity* Angelo Aulisa, 2015-12-22

things that matter Psychologist Nicholas Humphrey says awe forces us to reconfigure our mental model so we can make sense of what we've seen and experienced It broadens us inspires us Awe then has the ability to awaken us It can show us the beauty that already exists and remind us who we are at our spiritual core It brings us closer to our purpose and passion and helps us create meaning It helps us to live with the mystery in life to survive the uncertainty of it all It allows us to sink into the experience of living To engage in it To be touched by it To participate rather than needing to manipulate contrive or control every moment each experience When you live in awe of your life you are open to diverse experiences Some are easy peasy comfortable and even joyous Others totally suck But you are okay because you know that within every experience the possibilities are limitless and experience is multi dimensional It is never just one thing It is always more than bad or good Polly Campbell designed this book to help you engage with the awesome qualities of your life Do the exercises if you want or not Read this book chapter by chapter or go to the section that will help you most right now Take what works discard the rest You will not be graded on how well you use this book You won't be judged Living an Awesome Life isn't about following a strict set of rules It's about living from your essence and using all that to catapult you into your best life What that life looks like is up to you You are the creator of your moments They are shaped by what you believe what you notice how you behave You get to choose No matter who you are what you've done where you've been what you've experienced and borne the very next moment can be awesome Seriously Sounds a little woo woo I know but this is totally doable When you discover the awe in the now it transforms the next moment and makes it more possible a bit easier to bear A bit more awesome When you string together a whole batch of little awesome moments you can create a big fat awesome life Starting now From right here
