NIMBY Politics in Japan S. Hayden Lesbirel,2019-05-15 Negative reaction to undesirable facilities in one s neighborhood not in my back yard isn t limited to the United States Japanese communities have also resisted siting decisions for power plants and have often delayed or killed projects for which a legitimate social need exists NIMBY Politics in Japan is the first detailed account in English of energy siting disputes in postwar Japan Based on an investigation of a hundred conventional and nuclear plants the book draws on a wide range of local and corporate sources as well as interviews with participants to reveal the bargaining processes involved in social choices and their public policy outcomes S Hayden Lesbirel examines why some siting decisions have taken an extraordinarily long time to complete while others have proceeded rapidly He focuses on

the intensity of conflict relative strengths among participants and the role of compensation and he shows how innovative uses of compensation often enable negotiated compromises to be reached Stressing the importance of dynamic bargaining and creative responses to social and political problems Lesbirel shows the value of negotiated compromises in Japanese consensual politics **Mathematicians and Education Reform, 1989-1990** Naomi Fisher,Harvey Keynes,Philip

Wagreich,1991 Educational issues are receiving a great deal of attention in the mathematical sciences community as concern rises over the quality of instruction in the nation s schools colleges and universities Insuring a mathematically literate population and increasing the number of students pursuing careers in mathematics science and engineering are high on the list of priorities Mathematicians can make important contributions to the educational reform process The present volume is the second in the series Issues in Mathematics Education launched in 1990 by the Conference Board of the Mathematical Sciences and published by the AMS and the Mathematical Association of America The purpose of the series is to stimulate the flow of information among mathematical scientists education specialists and teachers about innovative efforts to revitalize mathematics education Compiled and edited by the directors of the Mathematicians and Education Reform MER Network this book contains papers by speakers and participants in MER workshops and special sessions over the last three years Like the first volume which also grew out of an MER workshop this book is organized into two sections Projects and Issues and Reactions providing a balance between descriptions of successful existing projects and more in depth discussion of problems and issues in mathematics education reform With contributions by some of the major leaders in this area today this book will likely be of interest to a broad segment of the mathematical sciences community **Stratospheric Ozone**
