Science Fiction A Critical Guide:

Science Fiction Patrick Parrinder, 2014-09-25 First published in 1979 This volume presents Science Fiction as a coherent system not as a collection of facts or random sequence of individual voices The contributors are concerned with less with surveying the bare facts of the genre than with interpreting their significance They attempt to establish the common properties of Science Fiction writing whether in the treatment of a theme or in SF of a given period or nationality

Science Fiction: A Critical Guide Patrick Parrinder, 2022-10-15 This book first published in 1979 presents a portrait of science fiction as a distinct form of serious and creative literature The essays establish the common properties of science fiction writing and assess the history and significance of a field in which critical judgements have often been unreliable

Anatomy of Wonder 4 Neil Barron, 1995 The third edition 1987 of this annotated SF bibliography is cited in BCL3 Walford and the Supplement to Sheehy This revised and updated edition provides concise summaries and evaluations of some 2 100 works of fiction and over 800 works of nonfiction published from the genre s beginnings to th *Science Fiction* James Gibson, 1978 *Anatomy of Wonder* Neil Barron, 2004-12-30 This classic work is an essential tool for collection development research reference and readers advisory work BOOK JACKET *Anatomy of Wonder* Neil Barron, 1981-01-01

Political Theory, Science Fiction, and Utopian Literature Tony Burns, 2008-01-01 Ursula K Le Guin s *The Dispossessed* is of interest to political theorists partly because of its association with anarchism and partly because it is thought to represent a turning point in the history of utopian dystopian political thought and literature and of science fiction Published in 1974 it marked a revival of utopianism after decades of dystopian writing According to this widely accepted view *The Dispossessed* represents a new kind of literary utopia which Tom Moylan calls a critical utopia The present work challenges this reading of *The Dispossessed* and its place in the histories of utopian dystopian literature and science fiction It explores the difference between traditional literary utopia and novels and suggests that *The Dispossessed* is not a literary utopia but a novel about utopianism in politics Le Guin s concerns have more to do with those of the novelists of the 19th century writing in the tradition of European Realism than they do with the science fiction or utopian literature It also claims that her theory of the novel has an affinity with the ancient Greek tragedy This implies that there is a conservatism in Le Guin s work as a creative writer or as a novelist which fits uneasily with her personal commitment to anarchism **Science Fiction, Critical Frontiers** NA NA, 2016-04-30 Science fiction has recently been identified as providing the narrative paradigm for postmodernity This volume of essays combines theoretical discussions of the nature of science fiction with specific studies of utopian and dystopian narratives Alongside of this the essays here address feminist and African American issues the envisioning of radical alternative realities and futures cyborgs cyberpunk and cyber space age and aging hybridity

and monstrosity and contemporary society and the postmodern condition Fantasy and Science Fiction John R. Pfeiffer, 1971 *The Cambridge Companion to Science Fiction* Edward James, Farah Mendlesohn, 2003-11-20 Science fiction is at the intersection of numerous fields It is a literature which draws on popular culture and which engages in speculation about science history and all types of social relations This volume brings together essays by scholars and practitioners of science fiction which look at the genre from these different angles After an introduction to the nature of science fiction historical chapters trace science fiction from Thomas More to more recent years including a chapter on film and television The second section introduces four important critical approaches to science fiction drawing their theoretical inspiration from Marxism postmodernism feminism and queer theory The final and largest section of the book looks at various themes and sub genres of science fiction A number of well known science fiction writers contribute to this volume including Gwyneth Jones Ken MacLeod Brian Stableford Andy Duncan James Gunn Joan Slonczewski and Damien Broderick A Reference Guide for English Studies Michael J. Marcuse, 1990-01-01 This ambitious undertaking is designed to acquaint students teachers and researchers with reference sources in any branch of English studies which Marcuse defines as all those subjects and lines of critical and scholarly inquiry presently pursued by members of university departments of English language and literature Within each of 24 major sections Marcuse lists and annotates bibliographies guides reviews of research encyclopedias dictionaries journals and reference histories The annotations and various indexes are models of clarity and usefulness and cross references are liberally supplied where appropriate Although cost conscious librarians will probably consider the several other excellent literary bibliographies in print such as James L Harner s *Literary Research Guide* Modern Language Assn of America 1989 larger academic libraries will want Marcuse s volume Jack Bales Mary Washington Coll Lib Fredericksburg Va Library Journal **Anatomy of Wonder** Neil Barron, 1987 **Handbook of French Popular Culture** Pierre L. contemporary fantasy non mimetic literature in all its richness and diversity and offers a preliminary definition of the major fields of taxonomical interest in addition to marking some of the unmapped territories of fantastic fiction In its first part the book presents an overview of all major previous theoretical discussions of the issue particularly those by Tzvetan Todorov Rosemary Jackson Darko Suvin Brian Attebery Marek Oziewicz and Farah Mendlesohn The second part of the book provides an interesting comprehensive taxonomy of its own based on the notion of supragenological types of literature first introduced by Andrzej Zgorzelski

Make-Believe David Dickinson,2020-01-30 I will tell you a story that will make you believe in God No story can guarantee being able to do this Yet novelists can tell stories that make us think about what we believe about God and why Despite repeated predictions of the death of the novel thousands of works of fiction are published and read in Britain each year Although Western society is less religiously observant than it was many 21st century novelists persist in pursuing theological religious and spiritual themes Make Believe seeks to explain why With chapters offering analyses of novels from several genres so called literary fiction historical fiction science fiction fantasy and dystopia David Dickinson discusses a wide spectrum of novelists Authors who are avowedly atheistic and authors who have a vested interest in perpetuating biblical stories are both featured Well known writers such as Rushdie McEwan McCarthy and Martell rub shoulders with some you may be meeting for the first time Appealing to literature students and people who simply enjoy reading whether Christian or not this study of God in novels invites us to open our minds and allow aspects of our culture to shape our understanding of God and to change our ways of talking about the divine
