attempts to resolve male crisis through Orientalizing figures of terror he shows how this failure reflects an inability to effectively extinguish the threat or frightening difference of terror The heroes in these movies are unable to heal themselves or restore order often becoming as destructive as the threats they are supposed to be fighting Donnar concludes that interrelated anxieties about masculinity and nationhood continue to affect contemporary American cinema and politics By showing how persistent these cultural fears are the volume offers an important counternarrative to this supposedly unprecedented moment in American history
