Zarrow,2006 Over the first half of the twentieth century the lives of millions of urban Chinese were transformed by new ideas
new objects new jobs new leisure pursuits new forms of transportation new architecture in a word new life styles and habits
of mind What did these changes mean to ordinary people The essays in this book examine how prevailing discourses on
nationalism feminism democracy individualism socialism and the like emerged and were absorbed into the lived experiences
and material culture of ordinary Chinese Only from intimate personal experiences with forces ranging from war revolution
and state building to advertising blitzes and boycotts was Chinese modernity forged forged out of forces larger than
individuals but simultaneously observed interpreted adapted and absorbed by those individuals **The Concept of the
Social in Uniting the Humanities and Social Sciences** Michael E. Brown,2015-02 In this book Michael Brown provides
original and critical analysis of the state of the social sciences and the humanities He examines the different disciplines that
address human affairs from sociology philosophy political science and anthropology to the humanities in general to
understand their common ground He probes the ways in which we investigate the meaning of individuality in a society for
which individuals are not the agents of the activities in which they participate and he develops a critical method for studying
the relations among activities objects and situations The Concept of the Social in Uniting the Humanities and Social Sciences
restores the centrality of sociality to all disciplines that provide for and depend on the social dimension of human life
Ultimately he establishes a theory of the unity of the human sciences that will surely make readers rethink the current state
and future of theory in those fields for years to come *Handbook on Evolution and Society* Alexandra Maryanski,Richard
Machalek,Jonathan H. Turner,2015-11-17 Handbook on Evolution and Society brings together original chapters by prominent
scholars who have been instrumental in the revival of evolutionary theorizing and research in the social sciences over the last
twenty five years Previously unpublished essays provide up to date critical surveys of recent research and key debates The
contributors discuss early challenges posed by sociobiology the rise of evolutionary psychology the more conflicted response
of evolutionary sociology to sociobiology and evolutionary psychology Chapters address the application and limitations of
Darwinian ideas in the social sciences Prominent authors come from a variety of disciplines in ecology biology primatology
psychology sociology and the humanities The most comprehensive resource available this vital collection demonstrates to
scholars and students the new ways in which evolutionary approaches ultimately derived from biology are influencing the
