Teaching Mathematics for the 21st Century Linda Huetinck,Sara N. Munshin,2008 This third edition of Teaching
Mathematics for the 21st Century continues to help teachers let the secret out to open up to their students the wonderful
discoveries and challenges of the pattern making and problem solving aspects of a fascinating subject mathematics The
rationale remains the same to enable prospective and current teachers to access and use tools and strategies to effectively
teach mathematics to contemporary students Changing demographics knowledge of how people learn and technology all
impact the way we educate our young people This edition incorporates lessons and strategies from programs that have
proven success in many types of classrooms Many of these examples help students connect mathematics to real life situations
and communicate their understanding of the underlying concepts Although technology is constantly being upgraded ways to
increase student motivation through its application remains a goal For example since applets can enhance a lesson whether
the teacher uses a computer projector a smart board or has students work individually on computers we have identified
several sources of mathematics applets that can be correlated to various lessons Research citations and summaries have
been updated to reflect current information on teaching and learning For future teachers
