Home Is the Hunter Hans M. Carlson, 2009-05-01 The James Bay Cree lived in relative isolation until 1970 when Northern Quebec was swept up in the political and cultural changes of the Quiet Revolution The ensuing years have brought immense change for the Cree who now live with the consequences of Quebec's massive development of hydroelectricity timber and mineral resources in the North Home Is the Hunter presents the historical environmental and cultural context from which this recent story grows Hans Carlson shows how the Cree view their lands as their home their garden and their memory of themselves as a people By investigating the Cree's relationship with the land and their three hundred years of contact with outsiders the author illuminates the process of cultural negotiation at the foundation of ongoing political and environmental debates This book is more than a story of dam building and industrial logging in northern Quebec It offers a way of thinking about indigenous peoples struggles for rights and environmental justice in Canada and elsewhere

Contours of Canadian Thought A.B. McKillop, 1987-12-15 The leaps of knowledge in nineteenth century science shook the foundations of religious and humanistic values throughout much of the world The Darwinian Revolution and similar developments presented enormous philosophical challenges to Canadian scientists philosophers and men of letters Their responses many and varied form a central theme in this collection of essays by one of Canada's leading intellectual historians McKillop explores the thought of a number of English Canadian thinkers from the 1860s to the 1920s decades that saw Canada's entry into the modern age We meet Daniel Wilson an educator and ethnologist for whom the pursuit of science was a form of poetic engagement requiring the poet's sensibilities John Watson one of the world's leading exponents of objective idealism whose philosophical premises helped to undermine the very

religious tradition he sought to bolster and William Dawson LeSueur an apostle of Positivism whose spirited defence of critical inquiry and evolutionary social ethics led him towards an entirely contradictory position In addition to profiles of individuals McKillop considers the ways in which their ideas operated in the context of Canadian institutions including the universities and the press From these perspectives emerges a detailed analysis of the life of the mind of English Canada in an age of questioning of doubt and of struggle to reorient the intellectual and philosophical positions of a quickly changing society
