Material culture : critical concepts in the social sciences. Vol. 3 : Pt. 1 Victor Buchli, 2004 Publisher description

Material Culture and Technology in Everyday Life Phillip Vannini, 2009 Focusing on the technoculture of everyday life this book attempts to zero in on the simplicity and the habitual character of the interaction between humans and material objects which is often assumed or taken for granted Because objects are always meaningful in the pragmatic use to which they are directed the material world of everyday life can be seen as a technoculture of its own one made of behaviors as simple and yet as significant as using a lawnmower or decorating one's body In discussing the unique methodological components of the ethnography of the technoculture of everyday life this book begins a dialogue on how we can examine from the participants perspective the interconnections between social agents their technological material practices their material objects or technics and their social and material environment

The Oxford Handbook of Religion and Emotion John Corrigan, 2008 This volume collects essays under four categories religious traditions religious life emotional states and historical and theoretical perspectives They describe the ways in which emotions affect various world religions and analyse

the manner in which certain components of religious represent and shape emotional performance **Playing Indian** Philip J. Deloria, 2022-05-17 The Boston Tea Party the Order of Red Men Camp Fire Girls Boy Scouts Grateful Dead concerts just a few examples of white Americans tendency to appropriate Indian dress and act out Indian roles A valuable contribution to Native American studies Kirkus Reviews This provocative book explores how white Americans have used their ideas about Native Americans to shape national identity in different eras and how Indian people have reacted to these imitations of their native dress language and ritual At the Boston Tea Party colonial rebels played Indian in order to claim an aboriginal American identity In the nineteenth century Indian fraternal orders allowed men to rethink the idea of revolution consolidate national power and write nationalist literary epics By the twentieth century playing Indian helped nervous city dwellers deal with modernist concerns about nature authenticity Cold War anxiety and various forms of relativism Deloria points out however that throughout American history the creative uses of Indianness have been interwoven with conquest and dispossession of the Indians Indian play has thus been fraught with ambivalence for white Americans who idealized and villainized the Indian and for Indians who were both humiliated and empowered by these cultural exercises Deloria suggests that imagining Indians has helped generations of white Americans define mask and evade paradoxes stemming from simultaneous construction and destruction of these native peoples In the process Americans have created powerful identities that have never been fully secure **Images of the Recent Past** Charles E. Orser Jr., 1996-08-15 Historical archaeology has been without a definitive up to date collection that reflects the breadth of the field_ until now Orser s book brings together classic and contemporary articles that demonstrate the development of the field over the last twenty years both in North America and throughout the world Orser s selections represent a wide variety of locales and perspectives and include works by many of the leading figures in the field Engaging articles make it accessible to any interested reader and superb for historical archaeology classes *Factional Competition and Political Development in the New World* Elizabeth M. Brumfiel, John W. Fox, 2003-12-04 This volume examines how factional competition in ancient New World societies led to the development of chiefdoms states and empires Innovative Approaches in Pedagogy for Higher Education Classrooms Enakshi Sengupta, Patrick Blessinger, 2022-03-17 This book highlights case studies and innovative teaching methods used by academics across the globe It talks about how teaching staff should stimulate students active engagement in their own learning processes and discusses the approach of implementing a project based learning activity that integrates learning in an authentic manner *Dress Hermeneutics and the Hebrew Bible* Antonios Finitis, 2022-05-19 Antonios Finitis and contributors continue their examination of dress and clothing in the Hebrew Bible in this collection of illuminating essays Straddling the divide between the material and the ideological this book lends shape and texture to topics including social standing agency and the motif of cloth and clothing in Esther Essays also explore the function of dress metaphors in imprecatory Psalms the symbolic function of headdresses and the divine clothing of Adam and Eve and the hermeneutics of

trauma recovery Together the contributors continue to shape scholarly discourse on a growing body of scholarship on dress in the Bible By turning their analytical gaze to this primary evidence the contributors are able to reveal the social psychological aesthetic ideological and symbolic meanings of dress in the Hebrew Bible thereby producing insights into the literature and cultural world of the ancient Near East *Shared Spaces and Divided Places* Deborah L. Rotman, Ellen-Rose Savulis, 2003 This indispensable collection of essays is among the first to seriously link gender and landscape research two major emerging topics in historical archaeology and to explore the relationship between the two Landscapes represent unique as well as collective experiences so it is not without cultural significance that landscapes have historically been codified as female The book represents an intersection of the study of landscape archaeology and space with the study of gender By expanding the definition of landscape to include interior spaces by challenging the equivocation of gendered space with feminized space and by approaching the subject matter dialectically the book promotes an in depth understanding of the issues that arise when scholars apply gender issues to the study of space manipulation **Academic Anthropology and the Museum** Mary Bouquet, 2001 The museum boom with its accompanying objectification and politicization of culture finds its counterpart in the growing interest by social scientists in material culture much of which is to be found in museums Not surprisingly anthropologists in particular are turning their attention again to museums after decades of neglect during which fieldwork became the hallmark of modern anthropology so much so that the social and the material parted company so radically as to produce a kind of knowledge gap between historical collections and the intellectuals who might have benefitted from working on these material representations of culture Moreover it was forgotten that museums do not only present the pastness of things A great deal of what goes on in contemporary museums is literally about planning the shape of the future making culture materialize involves mixing things from the past taking into account current visions and knowing that the scenes constructed will shape the perspectives of future generations However the re invention of museum anthropology presents a series of challenges for academic teaching and research as well as for the work of cultural production in contemporary museums issues that are explored in this volume **A Sociology of Religious Emotion** Ole Riis, Linda Woodhead, 2010-06-24 Thoughtfully illustrated with photographic plates that capture the global range of religions and cultures discussed Book Jacket [The SAGE Handbook of Social Anthropology](#) Richard Fardon, Oliva Harris, Trevor H J Marchand, Cris Shore, Veronica Strang, Richard Wilson, Mark Nuttall, 2012-07-25 In two volumes the SAGE Handbook of Social Anthropology provides the definitive overview of contemporary research in the discipline It explains the what where and how of current and anticipated work in Social Anthropology With 80 authors contributing more than 60 chapters this is the most comprehensive and up to date statement of research in Social Anthropology available and the essential point of departure for future projects The Handbook is divided into four sections Part I Interfaces examines Social Anthropology s disciplinary connections from Art and Literature to Politics and Economics from Linguistics to Biomedicine from History to Media Studies

Part II Places examines place region culture and history from regional area studies to a globalized world Part III Methods examines issues of method from archives to war zones from development projects to art objects and from ethics to comparison Part IV Futures anticipates anthropologies to come in the Brain Sciences in post Development in the Body and Health and in new Technologies and Materialities Edited by the leading figures in social anthropology the Handbook includes a substantive introduction by Richard Fardon a think piece by Jean and John Comaroff and a concluding last word on futures by Marilyn Strathern The authors each at the leading edge of the discipline contribute in depth chapters on both the foundational ideas and the latest research Comprehensive and detailed this magisterial Handbook overviews the last 25 years of the social anthropological imagination It will speak to scholars in Social Anthropology and its many related disciplines *Zeitschrift für Ethnologie* ,1994 List of members of the Society in 1903 19 *When I Was a Child* Susan B. Ridgely,2006-05-18 First Communion is generally understood as a rite of passage in which seven and eight year old Catholic children transform from baptized participants in the Church to members of the body of Christ the universal Catholic Church This official Church account however ignores what the rite actually may mean to its participants In *When I Was a Child* Susan Ridgely Bales demonstrates that the accepted understanding of a religious ritual can shift dramatically when one considers the often neglected perspective of child participants Bales followed Faith Formation classes and interviewed communicants parents and priests in an African American parish and in a parish containing both white and Latino congregations By letting the children speak for themselves through their words drawings and actions *When I Was a Child* stresses the importance of rehearsal the centrality of sensory experiences and the impact of expectations in the communicants interpretations of the Eucharist In the first sustained ethnographic study of how children interpret and help shape their own faith Bales finds that children s perspectives give new contours to the traditional understanding of a common religious ritual Ultimately she argues that scholars of religion should consider age as distinct a factor as race class and gender in their analyses **Power and Pilgrimage** Sanne Derks,2009 *Power and Pilgrimage* is an in depth anthropological study of life at a Bolivian pilgrimage site It focuses on the experiences of pilgrims and how in their Marian devotion they express and learn to live with the various inequalities they experience in everyday life Issues of poverty and class inequality lead them to approach the Virgin of Urkupina to support them in their quest for economic betterment Another social inequality that comes to the fore is based on gender in particular Bolivian women seek Mary s support to deal with violence and oppression in their homes Finally ethnic inequalities are discussed by analysing the dance processions in honour of the Virgin since these reflect contested ethnic identities **The Work(s) of Samuel Richardson** Stephanie Fysh,1997 Samuel Richardson emerges in Fysh s analysis as a man on the cusp of change in the organization of the printing industry and of labor generally and in the nature of the literary text and his work as a printer as well as his literary works the two being fundamentally inseparable come to be seen as instrumental in and representative of these changes
