The Natural History of Alcoholism Revisited George E. Vaillant, 2009-07-01 In this updated version of his landmark study on alcoholism George Vaillant returns to the same subjects but with the perspective gained from fifteen years of further follow up

Triumphs of Experience George E. Vaillant, 2012-10-30 At a time when people are living into their tenth decade the longest longitudinal study of human development ever undertaken offers welcome news for old age our lives evolve in our later years and often become more fulfilling Among the surprising findings people who do well in old age did not necessarily do so well in midlife and vice versa

Hijacked Brains Henrietta Robin Barnes, MD, 2015-01-06 This book written from the perspective of a practicing primary care physician interweaves patients stories with fascinating new brain research to show how addictive drugs overtake basic brain functions and transform them to create a chronic illness that is very difficult to treat The idea that drug and alcohol addiction are chronic illnesses and not character flaws is not news this notion has been around for many years What Hijacked Brains offers is context and personal stories that demonstrate this point in a very accessible package Dr Barnes explores how the healthy brain works how addictive drugs flood basic reward pathways and what it feels like to grapple with addiction She discusses how for individuals the combination of genetic and environmental factors determines both vulnerability for addiction and the resilience necessary for recovery Finally she shows how American culture with its emphasis on freewill and individualism tends to blame the addict for bad choices and personal weakness thereby impeding political and or health related efforts to get the addict what she needs to recover

Why Early A.A. Succeeded Dick B., 2001 Early AAs founded their pioneer program on basic ideas from the Bible What did they study What did they learn How did they approach the possible biblical subjects There are historical answers and this book provides them More important how can someone in A A or a 12 Step program study the Bible in the way the pioneers did and achieve the same 75% to 93% documented success rates among seemingly hopeless medically incurable alcoholics who went to any lengths to establish their relationship and fellowship with God This book shows you how to do it today

US of AA Joe Miller, 2019-04-02 In the aftermath of Prohibition America s top scientists joined forces with AA members and put their clout behind a campaign to convince the nation that alcoholism is a disease They had no proof but they hoped to find it once research money came pouring in The campaign spanned decades and from it grew a multimillion dollar treatment industry and a new government agency devoted to alcoholism But scientists research showed that problem drinking is not a singular disease but a complex phenomenon requiring an array of strategies There s less scientific evidence for the effectiveness of AA than there is for most other treatments including self enforced moderation therapy and counseling and targeted medications AA s own surveys show that it doesn t work for the overwhelming majority of problem drinkers Five years in the making Joe Miller s brilliant in depth investigative reporting into the history politics and science of alcoholism shows exactly how AA became our nation s de facto treatment policy even as evidence accumulated for more effective remedies and how as

a result those who suffer the most often go untreated US of AA is a character driven beautifully written expos full of secrecy irony liquor industry money the shrillest of scare tactics and at its center a grand deception In the tradition of Crazy by Pete Earley and David Goldhill s Catastrophic Care US of AA shines a much needed spotlight on the addiction treatment industry It will forever change the way we think about the entire enterprise *Quit Smoking Weapons of Mass Distraction* Simon Chapman,2022-06-26 Who keeps telling smokers they can t quit without help For decades there have been far more ex smokers than smokers and an estimated 75% of smokers quit without drugs or professional help But smoking cessation is a global phenomenon serviced by multibillion dollar industries including the pharmaceutical and e cigarette sectors and health professionals These industries try to denigrate unassisted cessation and promote their products and services weapons of mass distraction as essential to successful quitting This contributes to the medicalisation of a process that before these products were available had a natural history where drugs and expertise were absent yet millions of people around the world still quit Simon Chapman AO is one of Australia s foremost experts on strategies to minimise harm from tobacco In *Quit Smoking Weapons of Mass Distraction* he reviews the early history of quitting smoking and the rise of assisted quitting and gives insight into the forces that have tried to undermine smokers agency to stop Chapman also provides actionable policy solutions to help people actually quit smoking This is a splendid read for anyone interested in what really works to reduce smoking and what helps to keep Big Tobacco in business Mike Daube AO Emeritus Professor in Public Health Curtin University Chapman is indispensable reading for anyone wanting to help the billion odd smokers end their addiction A powerful and important book Robert N Proctor Professor of the History of Science at Stanford University **Aging Well** George E.
