Permaculture is more popular than ever but it can still be a daunting concept. If you are new to permaculture and interested in learning more, Practical Permaculture offers authoritative in-depth and hands-on advice for a more holistic approach to sustainable living. Jessi Bloom and Dave Boehnlein, two dynamic leaders in the permaculture community, explain the basics of permaculture, share their design process, and explore various permaculture systems including soil, water, waste, energy, shelter, food, and plants and animals and wildlife. They also profile the fifty most useful plants for permaculture landscapes. The Carbon-Free Home Stephen Hren, Rebekah Hren, 2008. Having weaned themselves completely from fossil fuels in their conventional 1930s urban house, Stephen and Rebekah Hren provide a map for others to do the same. Their book shows first how to reduce energy consumption, then to retrofit existing homes to obtain all heating, cooling, cooking, refrigeration, hot water, and electricity from renewable resources. The Hrens also provide advice on sustainable, low-impact methods of transportation and home gardening. These practical approaches, many of which are suitable for renters as well as owners, fit anyone's budget and can be implemented over time to progressively liberate a home from fossil-fuel dependency.
