McGraw, Micah Watson, 2012-11-16 Natural law has long been a cornerstone of Christian political thought providing moral norms that ground law in a shareable account of human goods and obligations Despite this history twentieth and twenty first century evangelicals have proved quite reticent to embrace natural law casting it as a relic of scholastic Roman Catholicism that underestimates the import of scripture and the division between Christians and non Christians As recent critics have noted this reluctance has posed significant problems for the coherence and completeness of evangelical political reflections Responding to evangelically minded thinkers increasing calls for a re engagement with natural law this volume explores the problems and prospects attending evangelical rapprochement with natural law Many of the chapters are optimistic about an evangelical re appropriation of natural law but note ways in which evangelical commitments might lend distinctive shape to this engagement **Politics** , *Rediscovering the Natural Law in Reformed Theological Ethics* Stephen J. Grabill, 2006-10-05 Is knowledge of right and wrong written on the human heart Do people know God from the world around them Does natural knowledge contribute to Christian doctrine While these questions of natural theology and natural law have historically been part of theological reflection the radical reliance of twentieth century Protestant theologians on revelation has eclipsed this historic connection Stephen Grabill attempts the treacherous task of reintegrating Reformed Protestant theology with natural law by appealing to Reformation era theologians such as John Calvin Peter Martyr Vermigli Johannes Althusius and Francis Turretin who carried over and refined the traditional understanding of this key doctrine *Rediscovering the Natural Law in Reformed Theological Ethics* calls Christian ethicists theologians and laypersons to take another look at this vital element in the history of Christian ethical thought

Gerard Casey, 2021-10-04 In *Freedom's Progress* Gerard Casey argues that the progress of freedom has largely consisted in an intermittent and imperfect transition from tribalism to individualism from the primacy of the collective to the fragile centrality of the individual person and of freedom Such a transition is he argues neither automatic nor complete nor are relapses to tribalism impossible The reason for the fragility of freedom is simple the importance of individual freedom is simply not obvious to everyone Most people want security in this world not liberty Libertarians writes Max Eastman used to tell us that the love of freedom is the strongest of political motives but recent events have taught us the extravagance of this opinion The herd instinct and the yearning for paternal authority are often as strong Indeed the tendency of men to gang up under a leader and submit to his will is of all political traits the best attested by history The charm of the collective exercises a perennial magnetic attraction for the human spirit In the 20th century Fascism Bolshevism and National Socialism were Casey argues each of them a return to tribalism in one form or another and many aspects of our current Western welfare states continue to embody tribalist impulses Thinkers you would expect to feature in a history of political thought feature in

this book Plato Aristotle Machiavelli Locke Mill and Marx but you will also find thinkers treated in Freedom's Progress who don't usually show up in standard accounts Johannes Althusius Immanuel Kant William Godwin Max Stirner Joseph Proudhon Mikhail Bakunin Pyotr Kropotkin Josiah Warren Benjamin Tucker and Auberon Herbert Freedom's Progress also contains discussions of the broader social and cultural contexts in which politics takes its place with chapters on slavery Christianity the universities cities Feudalism law kingship the Reformation the English Revolution and what Casey calls Twentieth Century Tribalisms Bolshevism Fascism and National Socialism and an extensive chapter on human prehistory

The Political Theory of Montesquieu Melvyn

Richter,1977-04-29 This volume makes available in an English translation the most significant part of Montesquieu's political social and legal theory About two thirds of the volume has been translated from the Spirit of the Laws not redone in English since the eighteenth century That version was notoriously inadequate Montesquieu's key terms were not rendered consistently often his meaning was distorted by giving the nearest English eighteenth century legal or institutional equivalent Finally English usage has changed so much that the eighteenth century translation makes Montesquieu seem both quaint and obscure This volume also includes substantial selections from the Persian Letters and the Considerations on the Causes of the Romans Greatness and Decline Although adequate translations of these works exist it seemed advisable to maintain intellectual and stylistic consistency by providing English versions on the same principles as the Spirit of the Laws

Moral Identity in Early Modern English Literature Paul Cefalu,2004-11-18 Paul Cefalu's study explores the relationship between moral character and religious conversion in the poetry and prose of Sidney Spenser Donne Herbert and Milton as well as in early modern English Conformist and Puritan sermons theological tracts and philosophical treatises Cefalu argues that early modern Protestant theologians were often unable to incorporate a coherent theory of practical morality into the order of salvation Cefalu draws on fresh historicist theories of ideology and subversion but takes issue with historicist tendency to conflate generic and categorical distinctions among texts He argues that imaginative literature by virtue of its tendency to place characters in approximately real ethical quandaries uniquely points out the inability of early modern English Protestant theology to merge religious theory and ethical practice This study should appeal not only to literary critics and historians but also to scholars interested in the history of moral theory
