Lee (M.D.),1995 The 5-minute Herb and Dietary Supplement Consult Adriane Fugh-Berman,2003 This unique book gives health care professionals a quick reference to herbs minerals vitamins amino acids probiotics enzymes over the counter hormones and other dietary supplements commonly used by consumers The text covers claims indications scientific evidence possible benefits adverse effects contraindications and drug interactions Compatibility BlackBerry R OS 4 1 or Higher iPhone iPod Touch 2 0 or Higher Palm OS 3 5 or higher Palm Pre Classic Symbian S60 3rd edition Nokia Windows Mobile TM Pocket PC all versions Windows Mobile Smartphone Windows 98SE 2000 ME XP Vista Tablet PC *The Estrogen Alternative* Raquel Martin,Judi Gerstung,2004-11-22 This updated fourth edition of *The Estrogen Alternative* offers the latest information on how bioidentical progesterone therapy also known as natural HRT can provide safe natural solutions for the numerous problems women face from hormone deficiency and imbalance The authors sift through the many layers of misinformation and contradictory studies warning against corporate sponsored research in a multi billion dollar menopausal industry and guide readers to natural alternatives This fourth edition also includes new information regarding estrogen dominance as a cause of prostate cancer in men the dangers of a diet rich in soy contributing to thyroid disorders and estrogen overload unsaturated oils causing hormone imbalance and the connection between birth control pills shots implants and infertility The controversy over mammography and the importance of focusing on safer more effective methods of cancer detection are also well documented **BOOK JACKET 101 Ways to Find Six-Figure Medical or Popular Ghostwriting Jobs & Clients** Anne Hart,2006-11-12 How would you like to earn perhaps 100 000 annually as a medical or other specialty ghostwriter You don't necessarily need a degree in science to earn six figures as a ghostwriter What you do need is to focus or specialize in one subject or area of expertise If you choose medical ghostwriting you'd be writing pharmaceutical reports or informational books about research and clinical trials performed by scientists physicians and researchers You could work with pharmaceutical firms medical software manufacturers or for public relations firms or literary agents You'd be making a lot more than the usual 10 000 a ghostwriter may receive for writing a career development how to book Medical ghostwriters can receive up to 20 000 per report Pharmaceutical and clinical trials reports or medical journal articles often are written by ghostwriters Ghostwriting medical or other factual information is big business It's one way pharmaceutical manufacturers communicate with physicians If you want to ghostwrite in this field get paid to investigate information physicians receive about medicines and interview researchers you can take the roads leading to steadier writing jobs document management or run your own business as a medical business or celebrity ghostwriter Here is the training you need to begin if you enjoy journalism with an attitude **Bio-Identical Hormones and Telomerase** Dr. Hiroshi Demura,Dr. Edmund Chein,2011-08-25 As we grow older many of us experience a tremendous amount of frustration because something inside us

doesn't work the way it used to Nutrition experts tell us to eat certain kinds of food some claim free radicals are the sole cause of aging and that the only way to longevity is through antioxidant supplements Fitness gurus tell us the only answer is exercise When we do exercise or go on a diet we feel a little better but not much and not the way we felt when we were younger We exercise or diet twice as much to stay at the same place and even that is a challenge The story has been the same throughout history so we wonder if we should continue to fight the battle or if we should just learn to grow old gracefully Improvements in medical technology and new knowledge about exercise nutrition and rest are all part of the solution to remaining young and healthy However we continue to see some people who do not take particularly good care of themselves yet are aging more gently and we know instinctively that parts of the anti aging puzzle must still be missing

From Belly Fat to Belly Flat Genie James, C. W. Randolph, 2010-01-01 Weight loss research shows that the average person will add 1 to 2 pounds around their abdomen each year between the ages of 35 and 55 without changing their eating or exercise habits Noted expert Dr C W Randolph explains why estrogen dominance a natural shift in hormone production that begins at age thirty which causes weight gain and sabotages the most steadfast attempts at shedding it Even worse estrogen places the added weight around the middle which has a negative impact both aesthetically and medically Once estrogen dominance has taken hold it creates a vicious cycle fat cells will produce even more estrogen which then biochemically predisposes the body to add on even more pounds Here Dr Randolph introduces the three step plan he's used with success in thousands of patients In simple language Dr Randolph lays out the facts about bioidentical hormones and explains what foods and supplements guard against or reverse estrogen dominance He also shares client success stories and presents practical eating plans recipes and shopping guides to put the advice into practice
