**Natural History** Carlos Fonseca, 2020-07-14 Just before the dawn of the new millennium a curator at a New Jersey museum of natural history receives an unusual invitation from a celebrated fashion designer She shares the curator's fascination with the secrets of the animal kingdom with camouflage and subterfuge and she proposes that they collaborate on an exhibition the nature of which remains largely obscure even as they enter into a strange relationship marked by evasion and elision Seven years later after the designer's death the curator recovers the archive of their never completed project During a long night of insomnia he finds within the archive a series of clues about the true history of the designer's family a mind bending puzzle that winds from Haifa Israel to bohemian 1970s New York to the Latin American jungles As he follows this trail the curator discovers a cast of characters whose own fixations interrogate the unstable frontiers between art science politics and religion An aging photographer living nearly alone in an abandoned mining town where subterranean fires rage without end creates miniature replicas of ruined cities A former model turned conceptual artist becomes the star defendant in a trial over the very soul and purpose of art A young indigenous boy receives a vision of the end of the world Reality is a curtain the curator realizes and to draw it back is to reveal the theater of the obsessed **Natural History** is a portrait of a world trapped between faith and irony tragedy and farce An urgent and impressively ambitious novel in the tradition of Italo Calvino and Ricardo Piglia it confirms Carlos Fonseca as one of the most daring writers of his generation

**A Natural History of the Romance Novel** Pamela Regis, 2013-08-31 The romance novel has the strange distinction of being the most popular but least respected of literary genres While it remains consistently dominant in bookstores and on best seller lists it is also widely dismissed by the critical community Scholars have alleged that romance novels help create subservient readers who are largely women by confining heroines to stories that ignore issues other than love and marriage Pamela Regis argues that such critical studies fail to take into consideration the personal choice of readers offer any true definition of the romance novel or discuss the nature and scope of the genre Presenting the counterclaim that the romance novel does not enslave women but on the contrary is about celebrating freedom and joy Regis offers a definition that provides critics with an expanded vocabulary for discussing a genre that is both classic and contemporary sexy and entertaining Taking the stance that the popular romance novel is a work of literature with a brilliant pedigree Regis asserts that it is also a very old stable form She traces the literary history of the romance novel from canonical works such as Richardson's *Pamela* through Austen's *Pride and Prejudice* Brontë's *Jane Eyre* and E M Hull's *The Sheik* and then turns to more contemporary works such as the novels of Georgette Heyer Mary Stewart Janet Dailey Jayne Ann Krentz and Nora Roberts

**Natural History** Justina Robson, 2004-12-28 A daring and original new novel from one of sci fi's most provocative voices **Natural History** is a stunning work of bold ideas unforgettable characters and epic adventure as one woman seeks to explore what may be the greatest mystery of all Idiosyncratic and unpredictable a novelist of real vision Zadie Smith author of *White Teeth*

Proper Words in Proper Places Robert James Merrett, 2024-04-08 Proper Words in Proper Places Dialectical Explication and English Literary History explores how literary history intertwines cultural political philosophical religious and commercial influences with literary production to create new ways of reading meaning and understanding The text provides a delightful and surprising mix of canonical and non canonical texts that merge many genres and literary allusions to highlight the complexities of literary historiography Simultaneously Proper Words in Proper Places digests the challenges of literary history and prepares readers to formulate for themselves the multiplicity of its nature and function Drawing from texts published between 1670 and 1920 Robert J Merrett demonstrates how the mixing and involvement of literary forms with such influences as painting music theatre natural history and notions of civility and spirituality erode simplistic ideas about the nature of narrative His keen analysis of the traditional and experimental rhetoric of the texts serves to illustrate the double vision of the humanities and shows how the liberal arts enlighten contemporary moral issues Additionally the chapters probe through their diverse models of reading how mixed literary genres oblige us to create textual memories as our readings unfold Merrett s linguistic and contextual analyses heighten cognitive psychological and aesthetic processes thereby demonstrating that poems plays novels and other literary forms mix lexical registers and interdisciplinary discourses to counter literal mindedness Proper Words in Proper Places is a unique work unsettling notions of periodicity promoting interdisciplinarity and countering educational indifference toward literary and aesthetic cultures Its explanations of the diversity of literary historiography could easily inform new design models for survey courses and help prepare those about to enter teaching professions who are expected to be familiar with the philosophical and contextual problems that motivate literary texts It promises stimulating and thought provoking study and invites readers to develop a sense of how literature operates as a system based on philosophical contraries and logical paradoxes

Scholl, Emily Morris, 2022-12-15 Since the late twentieth century there has been a strategic campaign to recover the impact of Victorian women writers in the field of English literature However with the increased understanding of the importance of interdisciplinarity in the twenty-first century there is a need to extend this campaign beyond literary studies in order to recognise the role of women writers across the nineteenth century a time that was intrinsically interdisciplinary in approach to scholarly writing and public intellectual engagement **Civilized Creatures** Jennifer Mason, 2005-08-04 In *Civilized*

*Creatures* Jennifer Mason challenges some of our most enduring ideas about how encounters with nonhuman nature shaped American literature and culture Mason argues that in the second half of the nineteenth century the most powerful influence on Americans' understanding of their affinities with animals was not increasing separation from the pastoral and the wilderness instead it was the population's feelings about the ostensibly civilized animals they encountered in their daily lives Americans of diverse backgrounds Mason shows found it attractive as well as politic to imagine themselves as most closely connected to those creatures who shared humans' aptitude for civilized life And to the minds of many in this period national prosperity depended less on periodic exposure to untamed wild nature than it did on the proper care and keeping of such animals within suburban and urban environments Combining literary analysis with cultural histories of equestrianism petkeeping and the animal welfare movement *Civilized Creatures* offers new readings of works by Susan Warner Nathaniel Hawthorne Harriet Beecher Stowe and Charles W. Chesnut In each case Mason demonstrates that understanding contemporary relationships between humans and animals is essential for understanding the debates about gender race and cultural power enacted in these texts The Athenaeum, 1888 The Nineteenth Century Revis(it)ed Ina

Bergmann, 2020-12-29 *The Nineteenth Century Revis(it)ed* *The New Historical Fiction* explores the renaissance of the American historical novel at the turn of the twenty-first century The study examines the revision of nineteenth-century historical events in cultural products against the background of recent theoretical trends in American studies It combines

insights of literary studies with scholarship on popular culture The focus of representation is the long nineteenth century a period from the early republic to World War I as a key epoch of the nation building project of the United States The study explores the constructedness of historical tradition and the cultural resonance of historical events within the discourse on the contemporary novel and the theory formation surrounding it At the center of the discussion are the unprecedented literary output and critical as well as popular success of historical fiction in the USA since 1995 An additional postcolonial and transatlantic perspective is provided by the incorporation of texts by British and Australian authors and especially by the inclusion of insights from neo Victorian studies The book provides a critical comment on current and topical developments in American literature culture and historiography
