Natural Theosophy: Happenings by the way Ernest Wood, 1930 **Natural Theosophy** Ernest Wood, 2008 **The Theosophist**, 1899 **The Natural Genesis** Gerald Massey, 1883 *Encyclopedia of Religion and Nature* Bron Taylor, 2008-06-10

The *Encyclopedia of Religion and Nature* originally published in 2005 is a landmark work in the burgeoning field of religion and nature. It covers a vast and interdisciplinary range of material from thinkers to religious traditions and beyond with clarity and style. Widely praised by reviewers and the recipient of two reference work awards since its publication, see www.religionandnature.com/ern. This new, more affordable version is a must-have book for anyone interested in the manifold and fascinating links between religion and nature in all their many senses.

The Theosophical Path Katherine Augusta Westcott Tingley, 1922 *The Natural Genesis (Two Volumes in One)* Gerald Massey, 2011-12-01

Egyptologist Gerald Massey challenged readers in *A Book of the Beginnings* to consider the argument that Egypt was the birthplace of civilization and that the widespread monotheistic vision of man and the metaphysical was in fact based on ancient Egyptian mythos. In *The Natural Genesis* presented here in an omnibus edition, Massey delivers a sequel delving deeper into his compelling polemic. In Volume I, he offers a more intellectual, fine-tuned analysis of the development of society out of Egypt. From the simplest signs, numbers, the cross to the grandest archetypes, darkness, the mother figure, Massey carefully and confidently lays the cultural and psychosocial bricks of evolutionism. Volume II provides detailed discourse on the Egyptian origin of the delicate components of the monotheistic creed. With his agile prose, Massey leads an adventurous examination of the epistemology of astronomy, time, and Christology and what it all means for human culture.

British author GERALD MASSEY (1828-1907) published works of poetry, spiritualism, Shakespearean criticism, and theology, but his best-known works are in the realm of Egyptology, including *The Book of the Beginnings*, *The Natural Genesis*, and *Ancient Egypt: The Light of the World*.

Occult truth is Nature without the illusory veil of the senses Helena Petrovna Blavatsky, 2018-06-29

On the essence of Truth beneath and beyond external appearances:

1. The Beacon Light of occult truth is Nature without the illusory veil of the senses. She is the Rainbow of Hope and our only hope.
2. True wisdom being a projection of our perceptive consciousness acts within without and not vice versa, awakening the spiritual senses in us and the power to act. Brain power and logic being outward looking can only serve the interests of lower minds.
3. Inner Wisdom is the Wisdom of Love and code of sublime ethics. Its noble ideals alone can empower people to reject the parasitic plants of human fabrication which are choking all goodness and truth in the world.
4. The ancient Egyptians, the Ethiopians of the East who came from Lanka or Ceylon, were a colony of dark-skinned Aryans, the Dravidians of Southern India, who took an already existing civilization with them to Egypt. He who dissipates the darkness of ignorance by the torch of truth awakens in our benumbed souls the faculty of distinguishing the true from the false and kindles a divine flame hitherto absent.
5. Theosophy is the white ray from which arise the seven colours of the solar spectrum, each human being assimilating one of these rays to

a greater degree than the other six Theosophy or rather the occult sciences it studies is something more than simple metaphysics it is universal transcendentalism 6 The numerical value of the names of old divinities was taught in the Lesser Mysteries But Mystery Language itself was reserved for the high initiates alone Envy jealousy and rivalry reign supreme in a society whose principal object is brotherhood Instead of helping one another many look askance at each other always ready to make fun of each other and criticise 7 The Theosophical Society is a Republic of Conscience Knowledge of Cosmogogenesis is the key to All knowledge The Theosophical Society is the Tree of Brotherhood grown from a kernel planted in the earth by the angel of Charity and Justice It depends upon its members to make of their Society an ark destined in a future not too distant to transport the humanity of a new cycle beyond the vast muddy waters of the deluge of hopeless materialism In the meantime we all should seek to bring some peace on earth to the hearts of those who suffer by lifting for them a corner of the veil which hides from them divine truth

The Logic of Ecstasy Ann Davis, 1992-01-01 None of these painters was motivated solely by mystical concerns each of them also painted works which were of a secular or non spiritual nature None the less they were all deeply interested in and concerned about matters mystical Through a careful examination of the primary documentation Ann Davis looks at the sources of their beliefs in Christianity transcendentalism and theosophy and theories of the fourth dimension and attempts to put some of their major works into new contexts so that familiar paintings can be seen in a new and revealing mystical way
