Noël O'Sullivan

Nature Of The Right European And American Politics And Political Thought Since 1789

Herbert Kitschelt, Anthony J. McGann

Nature Of The Right European And American Politics And Political Thought Since 1789:

The Nature of the Right Roger Eatwell, Noël O'Sullivan, 1990 From the John Holmes Library collection *The Nature of the Right* Roger Eatwell, Noel O'Sullivan, 1989 **Mapping Extreme Right Ideology** M. Bruter, S. Harrison, 2011-08-30 An explanation of variations in the discourses and electoral success of 25 extreme right parties across 17 European political systems The book shows how the European extreme right is mapped by the positions of parties and voters on two ideological dimensions and how the match between these determines electoral success *Liberalism Versus Conservatism* François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what do these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title an author *The Mainstreaming of the Extreme Right in France and Australia* Aurélien Mondon, 2016-03-09 What has led to the recent revival of the extreme right in Western democracies such as France and Australia and what impact has their success had on mainstream politics What shift has taken place in recent times as ideas and groups that once were considered marginal and undemocratic have come to play an important part in mainstream politics This book addresses these key questions by examining the resurgence of the extreme right in France and Australia and explores the history of right wing groups and their relationship with and impact on mainstream politics This compelling study on the rise of right wing parties in two countries with different histories but similar experiences of how mainstream parties campaigned and reacted to the changing political landscape presents a fascinating comparison of the history and political impact of ethno exclusivist and right wing populist politics in liberal democracies A detailed and thorough comparative analysis of parties such as the Front National and One Nation and the mainstreaming of their discourse by prominent leaders like John Howard and Nicolas Sarkozy offers new insights on the rise of the contemporary extreme right and how these groups and the ideas they represent have become increasingly mainstream and perhaps even hegemonic in the current political state Ideology, Mobilization and the Nation NA NA, 2016-04-30 This book examines Irish Basque and Carlist nationalism in the nineteenth and early twentieth centuries The first chapter covers definitions of the nation and nationalism the relationship of both to politics and ideology and an overview of the inception and evolution of nationalism in Western Europe The following chapter explores case studies through providing historical background of the relevant regions of the UK and Spain and discussing the respective movements and their ideological development The final chapter deals with comparisons of the case studies and categorizes variants of nationalism in the

liberal states of Europe **The Structure of Political Competition in Western Europe** Zsolt Enyedi, Kevin Deegan-Krause, 2013-09-13 Is European party politics hovering above society Why do voters pick one party over others Is it a question of class Of religion Of attitudes about taxes or immigration or global warming Or is it something else entirely The Structure of Political Competition in Western Europe takes a detailed look at the ways in which Western Europe's party systems are anchored in social and ideological structures The book's first section focuses on the role of social structures particularly education class and religion and analyzes the complex interplay among these factors The second section addresses the ways that the sociological structures such as class and religion interact with voters' values The third section examines the way that these structures and values shape the space of political competition among parties The conclusion integrates the findings of the empirical articles putting them into broader comparative perspective discussing whether relatively predictable structures have been overwhelmed by media driven spectacles political personalities and focus on short term economic performance This volume will appeal to scholars and graduate students in Europe and those from North America Asia and other regions who study European politics political parties cleavages and political behaviour This book was published as a special issue of West European Politics *Rhetoric, Ideology and Social Psychology* Charles Antaki, Susan Condor, 2014-03-19 Professor Michael Billig is one of the most significant living figures in social psychology His work spans thirty five years and has at times challenged conventional social scientific thinking on a range of key topics Billig has influenced a wide range of fields including intergroup conflict social attitudes and ideology rhetoric racism nati The Cambridge History of Twentieth-Century Political Thought Terence Ball, Richard Bellamy, 2003-08-14 Table of contents

The Populist Radical Right Cas Mudde, 2016-10-04 The populist radical right is one of the most studied political phenomena in the social sciences counting hundreds of books and thousands of articles This is the first reader to bring together the most seminal articles and book chapters on the contemporary populist radical right in western democracies It has a broad regional and topical focus and includes work that has made an original theoretical contribution to the field which make them less time specific The reader is organized in six thematic sections 1 ideology and issues 2 parties organizations and subcultures 3 leaders members and voters 4 causes 5 consequences and 6 responses Each section features a short introduction by the editor which introduces and ties together the selected pieces and provides discussion questions and suggestions for further readings The reader is ended with a conclusion in which the editor reflects on the future of the populist radical right in light of more recent political developments most notably the Greek economic crisis and the refugee crisis and suggest avenues for future research **The Radical Right in Western Europe** Herbert Kitschelt, Anthony J. McGann, 1997 An in depth analysis of radical right parties in seven countries **Narratives of Justice** Grant Reeher, 2010-05-06 Narratives of Justice offers a provocative contemporary look at the timeless questions of justice and fairness Using face to face interviews Grant Reeher plumbs the minds of legislators for their beliefs about distributive justice

and attempts to discover the ways in which those beliefs influence their behavior The book calls into question many notions of American political ideology and in particular the idea of an American exceptionalism regarding views from the political left and the dominance in the United States of a liberal tradition Political philosophers have amassed a large body of work on justice and fairness from a theoretical perspective but there is comparatively little empirical work on the subject The work that does exist concentrates on the beliefs of the public We know very little concerning the beliefs about justice held by political elites This work offers a window into the beliefs of legislators a group for which such an inquiry is rarely undertaken The book is based on a set of extended in depth interviews with the members of the Connecticut State Senate as well as a year of close observation of the Senate in action The interviews averaged four hours in length and covered a variety of topics related to fairness Through this material Reeher employs a narrative based framework to understand the patterns in the senators interview responses and develops a typology of the senator s narratives These narratives vary in both content and form and as a whole present a surprising range of views Narratives of Justice will be of interest to those concerned with justice political ideologies and political beliefs as well as state and local politics and more generally American politics Its wide research and thorough documentation make it a useful guide to the literature within and beyond political science concerning beliefs ideologies legislative behavior and qualitative research methods Grant Reeher is Assistant Professor Maxwell School of Citizenship and Public Affairs Department of Political Science Syracuse University and currently a Robert Wood Johnson Foundation Scholar in Health Policy Research University of Michigan

Social and Political Thought of Julius Evola Paul Furlong, 2011-04-21 This book is the first full length study in English to present his political thought to a wider audience beyond that of his followers and sympathisers and to bring into the open the study of a neglected strand of contemporary Western thought that of traditionalism

The Routledge Companion to Fascism and the Far Right Peter Davies, Derek Lynch, 2005-08-16 The Routledge Companion to Fascism and the Far Right is an engaging and accessible guide to the origins of fascism the main facets of the ideology and the reality of fascist government around the world In a clear and simple manner this book illustrates the main features of the subject using chronologies maps glossaries and biographies of key individuals As well as the key examples of Hitler s Germany and Mussolini s Italy this book also draws on extreme right wing movements in Latin America Eastern Europe and the Far East In a series of original essays the authors explain the complex topics including the roots of fascism fascist ideology fascism in government and opposition nation and race in fascism fascism and society fascism and economics fascism and diplomacy

Coleridge and the Conservative Imagination Alan P. R. Gregory, 2003 Why should anyone bother with Coleridge either as a theologian or a political theorist At first in desperation but now quite deliberately Alan Gregory convincingly suggests that one should bother because Coleridge mounted an important critique of reductionist explanations of human society and moral agency and because Coleridge has much regarding that important enterprise to teach us still While Gregory also offers a perceptive outline of early British

conservatism his main concern is with Coleridge's attack on reductionism including his defense of the will against associationism his criticisms of Enlightenment historiography his discussions of the inadequacies of political economy and the Trinitarian arguments against monism There is Gregory remarks no grasping the range or inner dynamic of Coleridge's thought without appreciating his religious vision his theology Indeed Coleridge himself affirmed that should we try to conceive a man without the ideas of God eternity freedom will absolute truth of the good the true the beautiful the infinite the man will have vanished

Key Concepts in Politics and International Relations Andrew Heywood, 2015-07-07 Concepts have a particular importance for students of politics and international relations Political argument often boils down to a struggle over the legitimate meaning of terms and enemies may argue fight and even go to war each claiming to be defending freedom upholding democracy or supporting justice The problem is that words such as freedom democracy and justice have different meanings to different people so that the concepts themselves come to seem problematic This book provides an accessible and comprehensive guide to the major concepts encountered in political analysis Each term is defined clearly and fully and its significance for political argument and practice is explored The text has been updated and expanded to take account of the increasing influence of globalization on politics and now features 70 additional concepts Renowned for its lively engaging style and user friendly approach the second edition is an invaluable companion to the study of politics and international relations

Understanding Racist Activism Kathleen M. Blee, 2017-07-20 White supremacist groups are highly secretive so their public propaganda tells us little about their operations or the people they attract To understand the world of organized racism it is necessary to study it from the inside by talking to their members and observing their groups Doing so reveals a disturbing picture of how fairly ordinary white people learn to embrace the vicious ideas and dangerous agendas of white supremacy This book takes the reader inside organized racism revealing the kind of women and men who join groups such as the Ku Klux Klan or neo Nazi skinheads and what they do in those groups The volume collects significant published works from renowned scholar Kathleen M Blee's work on racist activism alongside new essays on the theories methods and approaches of studying racist activism Discussing topics such as emotional issues in research the place of violence and hate in white supremacy and how women are involved in racial terrorism Blee makes use of a range of sources including oral histories ethnographic observations and interviews to shape her findings Written by the pioneer and leading scholar of women in racist activism this volume is essential reading for students scholars and general readers interested in the areas of social movements politics race studies and American history

The United States and the European Right, 1945-1955 Deborah Kisatsky, 2005 Nazi Germany's defeat in May 1945 commenced a decade long allied effort to democratize the former Reich The United States simultaneously began sheltering scientists industrialists and military officers complicit in Nazi crimes What explained this conflict between the spirit and practice of denazification Did U S Cold War anticommunism simply replace antifascism in the postwar period Did Americans favor rightists over leftists in a

quest to restore order in Europe In this groundbreaking study Deborah Kisatsky shows that opportunity not order galvanized U S foreign policy and that American dealings with the European Right were more complex than has been presumed U S leaders cooperated with West German Chancellor Konrad Adenauer to achieve shared Atlanticist goals And the United States co opted nationalistic fighters into a secret stay behind net of the Bund Deutscher Jugend Technischer Dienst But allied leaders jointly worked to contain such vocal neutralist nationalists as the ex Nazi Otto Strasser Cooperation co optation and containment of French and Italian as of German rightists advanced American hegemony in Europe These strategies extended techniques of social control perfected within the United States and synthesized domestic and international systems of power in the twentieth century BOOK JACKET **Terror from the Extreme Right** Tore Bjorgo,2014-03-05 This first volume in a new series comprises nine contributions originally presented at a workshop supported by the Norwegian Ministry of Foreign Affairs in Berlin in August 1994 Topics range from right wing violence in North America to the development patterns and causes of violence against fore The Right and Radical Right in the Americas Tamir Bar-On,Bàrbara Molas,2021-11-22 Studies of the right and radical right have proliferated since the rise of European nationalist and populist parties in the 1980s Yet the literature on the right and the radical right has a largely Euro American bias and has been limited by partisan academics that focus on the left The Right and Radical Right in the Americas hopes to be a pioneering work that examines the history and contemporary manifestations of the right and radical right throughout the Americas From interwar Canada to contemporary Chile the right and radical right have come in diverse ideological currents Those ideological currents have undergone historical changes and the strategies of the right and radical right need to be contextualized in respect of country and region The right and radical right also have distinctive meanings throughout the Americas and in different epochs

Yeah, reviewing a book **Nature Of The Right European And American Politics And Political Thought Since 1789** could increase your close associates listings. This is just one of the solutions for you to be successful. As understood, expertise does not recommend that you have astounding points.
