On the Theory of Unnatural Unnaturalness Becoming Natural Unnaturalness Mihajlo Bugarinovic, 2005-07 An assessment of postnihilism's probabilities through reaffirmation of nihilism's and pre-nihilism's definitions On the Theory of Unnatural Unnaturalness Becoming Natural Unnaturalness reverberates the radical thought that anti-foundationalism is the most tangible proof of the existence of a beyond Certainly a disappointed idealism resulting in destructiveness is an ongoing happening present since the founding of civilization Never have two penultimate demonstrations of it been placed side by side like nihilism and its variation anti-foundationalism Both use a general state of unhappiness for the purposes of indoctrination only anti-foundationalism is slightly quieter bringing a new level of subtlety Friedrich Nietzsche always found beauty in nihilism a radical position itself Never has it crossed the minds of those who abhor his doctrines that it is an opinion that supports none of the fascist ends that what he really meant to demonstrate was that only pre-nihilism can be a root of nihilism that nihilism can never be a creator of itself The purpose of author Mihajlo Bugarinovic's *On the Theory of Unnatural Unnaturalness Becoming Natural Unnaturalness* is to clear the name of one of the greatest thinkers of our time to put his importance in a new context

Browning's Beginnings Herbert F. Tucker Jr., 1980-12-31 Browning's *Beginnings* was first published in 1980 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Browning's *Beginnings* offers a fresh approach to the poet who among major Victorians has proved at once the most congenial and most inscrutable to modern readers Drawing on recent developments in literary theory and in the criticism of romantic poetry Herbert F. Tucker Jr. argues that Browning's stylistic obscurity is the result of a principled poetics of evasion This art of disclosure in deferring formal and semantic finalities constitutes an aesthetic counterpart to his open-ended moral philosophy of incompleteness Browning's poems like his enormously productive career find their motivation and sustenance in his optimistic love of the future a love that is indistinguishable from his lifelong fear that there will be nothing left to say The opening chapters trace the workings of Browning's art of disclosure with extensive and original interpretations of the unduly neglected early poems *Pauline Paracelsus* and *Sordello* and place special emphasis on Browning's attitudes toward poetic tradition and language A chapter on Browning's attitudes toward poetic tradition and language A chapter on Browning's plays identifies dynamics of representation in *Pippa Passes* *Strafford* and *King Victor and King Charles* Tucker discusses the pervasive analogy between

Browning's ideas about poetic representation and about representation in its erotic and religious aspects and shows how the early poems and plays illustrate correlative developments in poetics and in the exploration and dramatic rendering of human psychology. The remaining chapters follow the poetic psychology of Browning to its culmination in the great poems of his middle years. Exemplary readings of selected dramatic lyrics and monologues suggest that the ways of meaning in Browning's mature work variously bear out the sense of endlessness or perpetual initiation that is central to his poetic beginnings. Tucker thus contends that the romantic and the Victorian Browning have more in common than is generally supposed and his book should appeal to students of both periods. Its discussion of general literary issues poetic influence closure representation and meaning in application to particular texts should further recommend Browning's *Beginnings* to the nonspecialist reader interested in poetry and poetic theory.
