The Nature of the Farm Douglas W. Allen, Dean Lueck, 2004 A theoretical and empirical study of agricultural contracts and organization based on the transaction cost framework *Managing Risk in Agriculture A Holistic Approach* OECD, 2009-09-18 This book examines the current magnitude and characteristics of risk related policies in agriculture and what is known about the quantitative size of agricultural risks It also looks at the on farm off farm and market instruments available to manage risk Toward a Hayekian Theory of Social Change Peter J. Boettke, Erwin Dekker, Chad Van Schoelandt, 2023-12-06 This volume explores the political economy and social philosophy of F A Hayek as they relate to social change Arguably one limitation of Hayek s social philosophy is that he as some of his contemporaries quipped does not know the words for example This means that much of his work on social philosophy is relatively abstract and hard to approach This might also explain why it has taken so long for scholars to fully appreciate the breadth and depth of his social philosophy Toward a Hayekian Theory of Social Change remedies the lack of more practical studies of Hayek s theory of social change by bringing together several scholars from different social science disciplines who relate Hayek s theory of social change to empirical phenomena and methodological debates within their respective disciplines *The Growth of the Fruit and Vegetable Export Industry in Peru* Tatsuya Shimizu, 2022-03-23 This is the first book that analyzes the growth of the Peruvian fresh fruit and vegetable FFV export industry from the view point of the industrial development Instead of pointing out comparative advantages in production factors such as favorable climate and cheap labor this book focuses on the strategies of agribusiness companies industrial organizations and the public sector in the FFV export industry The analysis is based on the theoretical frameworks of coordination integration and upgrades in value chains business strategies to overcome seasonality and mitigate risks in agriculture and cluster development based on joint actions among players in the industry Based on the field studies with major FFV production and export companies and industrial organizations the case studies describe specific innovations in management and organizations taken by key actors in the industry This book can help policymakers in developing countries seek industrial development options based on agricultural exports The Oxford Handbook of Business Groups Asli M. business groups and their evolutionary dynamics 16 individual country chapters deal with business groups from Asia to Africa the Middle East to Latin America while overarching chapters consider the historical and theoretical context of business groups With contributions from leading experts The Oxford Handbook of business groups provides a comprehensive empirically and theoretically rich guide for scholars and policy makers *Institutional change, rural services, and agricultural performance in Kyrgyzstan* Kamiljon T. differences in contract farming experiences across a range of outcomes a syncretic understanding of contract farming is essential to the evaluation of the promise and perils of contract farming The resulting book proposes a way forward that is holistic in nature framing contract farming within a comparative institutional analysis so that it can better accommodate multidisciplinary priorities

The Innovative Entrepreneur Daniel F. Spulber,2014-06-16 Innovative entrepreneurs are the prime movers of the economy The innovative entrepreneur helps to overcome two types of institutional friction First existing firms may not innovate efficiently due to incumbent inertia resulting from adjustment costs diversification costs the replacement effect and imperfect adjustment of expectations The innovative entrepreneur compensates for incumbent inertia by embodying innovations in new firms that compete with incumbents Second markets for inventions may not operate efficiently due to transaction costs imperfect intellectual property protections costs of transferring tacit knowledge and imperfect information about discoveries The innovative entrepreneur addresses inefficiencies in markets for inventions through own use of discoveries and adoption of innovative ideas The Innovative Entrepreneur presents an economic framework that addresses the motivation of the innovative entrepreneur the innovative advantage of entrepreneurs versus incumbent firms the effects of competitive pressures on incentives to innovate the consequences of creative destruction and the contributions of the innovative entrepreneur to the wealth of nations

Family Farmers, Land Reforms and Political Action James Simpson,2024-08-27 This book examines how European farmers responded to the economic and political challenges created by the First World War and the Great Depression The difficulties of interwar Europe have been frequently explored but rarely from the perspective of the agricultural sector where two fifths of the population earned their livelihood mostly as small family farmers The traditional literature argues that the landed elites conspired to undermine many of Europe s young democracies after the Great War This book shows instead that by the early 1920s most had either sold their land or seen it confiscated following the widespread land reforms of Eastern Europe leaving the family farm as the dominant unit of production The book advances several theories that place the family farmer at the heart of change and explores why some proved to be enthusiastic supporters of liberal democracy while others preferred political ideologies as diverse as social democracy in Scandinavia or fascism in Germany and Italy It explores the nuanced and evolving links between family farms and government interests showing how this relationship varied in different countries and contexts across Western and Central Europe The book discusses the impact of family farms on agricultural market trends the influence of collective action on government policies and the increasing politicization of farmers and rural populations more broadly The book also sheds light on how agrarian problems and their solutions differed in industrial agrarian and transforming societies in interwar Europe This book will be an illuminating read for scholars of economic history comparative history and European history interested in agriculture and rural communities

Why Democracy Failed James Simpson,Juan Carmona,Carmona Pidal

Carmona,2020-05-07 Reveals how political change and economic development led to the collapse of democracy and the origins of the Spanish Civil War **The Economics of Adaptation and Long-term Relationships** Dean Victor

Williamson,2019 Do institutions matter in economic theory Or is the economic analysis of institutions a distraction from the most important action Indeed does Vernon Smith s notion of the institution free core of formal economic theory encompass that most important action To explore this question this book opens with an informal tour of the economics of system design out of which an economics of adaptation ultimately emerged The book then offers explorations via the application of the economics of adaptation in both law and economics relating to how parties manage relationships within the firm within the context of long term contracts and most vividly within the context of antitrust conspiracy Mere Economics Art
