The XX Brain Lisa Mosconi PhD, 2022-11-08 The instant New York Times bestseller In The XX Brain Lisa meticulously guides us in the ways we can both nourish and protect ourselves body and mind to ensure our brains remain resilient throughout our lives from the foreword by Maria Shriver The first book to address cognitive enhancement and Alzheimer s prevention specifically in women and to frame brain health as an essential component of Women s Health In this revolutionary book Dr Lisa Mosconi director of the Women s Brain Initiative at Weill Cornell Medical College provides women with the first plan to address the unique risks of the female brain Until now medical research has focused on bikini medicine assuming that women are essentially men with breasts and tubes Yet women are far more likely than men to suffer from anxiety depression migraines brain injuries and strokes They are also twice as likely to end their lives suffering from Alzheimer s disease even when their longer lifespans are taken into account But in the past the female brain has received

astonishingly little attention and was rarely studied by medical researchers resulting in a wealth of misinformation about women's health. The XX Brain confronts this crisis by revealing how the two powerful X chromosomes that distinguish women from men impact the brain first and foremost and by focusing on a key brain protective hormone estrogen. Taking on all aspects of women's health including brain fog, memory lapses, depression, stress, insomnia, hormonal imbalances, and the increased risk of dementia, Dr. Mosconi introduces cutting edge evidence based approaches to protecting the female brain including a specific diet proven to work for women, strategies to reduce stress, and useful tips for restorative sleep. She also examines the controversy about soy and hormonal replacement therapy, takes on the perils of environmental toxins, and examines the role of our microbiome. Perhaps best of all, she makes clear that it is never too late to take care of yourself. The XX Brain is a rallying cry for women to have full access to information regarding what is going on in their brains and bodies as well as a roadmap for the path to optimal lifelong brain health.

The Promise of Energy Psychology David

Feinstein, 2005-11-03 This groundbreaking book explains how to tap into your body's energy not only to change your health but to change your behaviors and thought patterns as well. Your body is comprised of energy pathways and energy centers that are in constant motion, a dynamic interplay with other energies and with your cells, organs, immune system, mood, and thoughts. If you can shift these energies, you can influence your physical health, your emotional patterns, and your state of mind. The Promise of Energy Psychology gives simple step by step instructions that will help you to overcome fear, guilt, shame, jealousy, or anger, change unwanted habits and behaviors, enhance your ability to love, succeed, and enjoy life. The energy approach presented in this book can help bring about significant change in your life. With this strategy, stubborn phobias often fade in minutes, the lifelong effects of an early trauma can frequently be reduced or completely eliminated, uncontrollable anger can rapidly become manageable, even elusive physical problems may respond where other treatments have failed. The Promise of Energy Psychology is an amazing tool that puts the ability to effect change directly into your hands and finally gives you control over your fears, pain, and destructive behaviors.

The Little Boy in the Tree Roland

Russoli, 2013-11-25 Roland Russoli received the call that every parent fears. His beloved son Andrew had been killed while serving his country. Here he shares his journey from shock and indefinable grief to the possibility of healing and reclaiming joy. Through the correspondences he shared with friends as he moved around the world and worked to make peace with his unspeakable loss, he dares to examine his feelings with honesty, humility, and even humor. To lose a child is an extremely isolating event, and it is his hope that by sharing his story, others who find themselves on this terrible path or know someone else who is traveling it, will know they are not alone.
