The Aesthetic Ground of Critical Theory Nathan Ross,2015-08-27 Walter Benjamin and Theodor W Adorno are considered today to be the two most significant early theorists in founding critical theory In their works and correspondence both thinkers turn to art and the aesthetic as a vital way for understanding modern society and developing philosophical methods This volume of original essays seeks to understand how they influenced each other and disagreed with each other on fundamental questions about art and the aesthetic The books deals with a variety of key philosophical questions such as How does art involve distinctive modes of experience What is the political significance of modern art What does aesthetic experience teach us about the limitations of conceptual thought How is aesthetic experience implicated in the very medium of thought language Ultimately the book presents a systematic argument for the foundational significance of the aesthetic in the development of the early critical theory movement *Birds and Nature* ,1897 **Birds & Nature Magazine** ,1897
