Reclaiming Din History Jennifer

Denetdale,2007-06 In this groundbreaking book the first Navajo to earn a doctorate in history seeks to rewrite Navajo history Reared on the Navajo Nation in New Mexico and Arizona Jennifer Nez Denetdale is the great great great granddaughter of a well known Navajo chief Manuelito 1816 1894 and his nearly unknown wife Juanita 1845 1910 Stimulated in part by seeing photographs of these ancestors she began to explore her family history as a way of examining broader issues in Navajo historiography Here she presents a thought provoking examination of the construction of the history of the Navajo people Din in the Navajo language that underlines the dichotomy between Navajo and non Navajo perspectives on the Din past Reclaiming Din History has two primary objectives First Denetdale interrogates histories that privilege Manuelito and marginalize Juanita in order to demonstrate some of the ways that writing about the Din has been biased by non Navajo views of assimilation and gender Second she reveals how Navajo narratives including oral histories and stories kept by matrilineal clans serve as vehicles to convey Navajo beliefs and values By scrutinizing stories about Juanita she both underscores the centrality of women s roles in Navajo society and illustrates how oral tradition has been used to organize social units connect Navajos to the land and interpret the past She argues that these same stories read with an awareness of

Navajo creation narratives reveal previously unrecognized Navajo perspectives on the past And she contends that a similarly culture sensitive re viewing of the Din can lead to the production of a Navajo centered history *A History of Navajo Nation Education* Wendy Shelly Greyeyes,2022-03-01 A History of Navajo Nation Education Disentangling Our Sovereign Body unravels the tangle of federal and state education programs that have been imposed on Navajo people and illuminates the ongoing efforts by tribal communities to transfer state authority over Din education to the Navajo Nation On the heels of the fiftieth anniversary of the founding of the Department of Din Education this important education history explains how the current Navajo educational system is a complex terrain of power relationships competing agendas and jurisdictional battles influenced by colonial pressures and tribal resistance An iron grip of colonial domination over Navajo education remains thus inhibiting a unified path toward educational sovereignty In providing the historical roots to today s challenges Wendy Shelly Greyeyes clears the path and provides a go to reference to move discussions forward **Through White Men's Eyes** J. Lee Correll,1979 *The Bears Ears: A Human History of America's Most Endangered Wilderness* David Roberts,2021-02-23 A personal and historical exploration of the Bears Ears country and the fight to save a national monument The Bears Ears National Monument in southeastern Utah created by President Obama in 2016 and eviscerated by the Trump administration in 2017 contains more archaeological sites than any other region in the United States It s also a spectacularly beautiful landscape a mosaic of sandstone canyons and bold mesas and buttes This wilderness now threatened by oil and gas drilling unrestricted grazing and invasion by Jeep and ATV is at the center of the greatest environmental battle in America since the damming of the Colorado River to create Lake Powell in the 1950s In *The Bears Ears* acclaimed adventure writer David Roberts takes readers on a tour of his favorite place on earth as he unfolds the rich and contradictory human history of the 1 35 million acres of the Bears Ears domain Weaving personal memoir with archival research Roberts sings the praises of the outback he s explored for the last twenty five years *Handbook of Heritage, Community, and Native American Languages in the United States* Terrence G. Wiley,Joy Kreeft Peyton,Donna Christian,Sarah Catherine K. Moore,Na Liu,2014-01-03 Co published by the Center for Applied Linguistics Timely and comprehensive this state of the art overview of major issues related to heritage community and Native American languages in the United States based on the work of noted authorities draws from a variety of perspectives the speakers use of the languages in the home community and wider society patterns of acquisition retention loss and revitalization of the languages and specific education efforts devoted to developing stronger connections with and proficiency in them Contributions on language use programs and instruction and policy focus on issues that are applicable to many heritage language contexts Offering a foundational perspective for serious students of heritage community and Native American languages as they are learned in the classroom transmitted across generations in families and used in communities the volume provides background on the history and current status of many languages in the linguistic mosaic of U S society and stresses the importance of drawing on these languages as societal community and

individual resources while also noting their strategic importance within the context of globalization

Viewing the Ancestors Robert S. McPherson, 2014-03-17 The Anasazi people left behind marvelous structures the ruins of which are preserved at Mesa Verde Chaco Canyon and Canyon de Chelly But what do we know about these people and how do they relate to Native nations living in the Southwest today Archaeologists have long studied the American Southwest but as historian Robert McPherson shows in *Viewing the Ancestors* their findings may not tell the whole story McPherson maintains that combining archaeology with knowledge derived from the oral traditions of the Navajo Ute Paiute and Hopi peoples yields a more complete history McPherson's approach to oral tradition reveals evidence that contrary to the archaeological consensus that these groups did not coexist the Navajos interacted with their Anasazi neighbors In addition to examining archaeological literature McPherson has studied traditional teachings and interviewed Native people to obtain accounts of their history and of the relations between the Anasazi and Athapaskan ancestors of today's Hopi Pueblo and Navajo peoples Oral history McPherson points out tells why things happened For example archaeological findings indicate that the Hopi are descended from the Anasazi but Hopi oral tradition better explains why the ancient Puebloans may have left the Four Corners region the drought that may have driven the Anasazi away was a symptom of what had gone wrong within the society a point that few archaeologists could derive from what is found in the ground An important text for non Native scholars as well as Native people committed to retaining traditional knowledge *Viewing the Ancestors* exemplifies collaboration between the sciences and oral traditions rather than a contest between the two

McPherson, 2018-08-20 A knowledgeable and sensitive description of some of the basic aspects of traditional Navajo teachings thought and language Utah Historical Quarterly Traditional teachings derived from stories and practices passed through generations lie at the core of a well balanced Navajo life These teachings are based on a very different perspective of the physical and spiritual world than that found in general American culture *Dinéjį Na`nitin* is an introduction to traditional Navajo teachings and history for a non Navajo audience providing a glimpse into this unfamiliar domain and illuminating the power and experience of the Navajo worldview Historian Robert McPherson discusses basic

The Environmental Crisis and Art Eva Maria R  pple,2019-02-12 Climate change is a defining issue of our time for which the immediate as well as potential future scope causes enormous impediments to human understanding and comprehension It is argued here that humans ought to make wise use of their capacity of thinking language and communication in working on the task of responsible action Required is nothing less than moving out of thoughtlessness an unresponsiveness and ignorance in particular towards certain environmental problems As human beings we are a species on this planet that is uniquely capable to think and foresee potential consequences and hold power to induce change on our actions It is up to human beings to confront challenges such as climate change to consider what has been critically assessed in thought and reflect on potential responses Crucial in this dialog is the ability to take the standpoint of the other including that of species as well as ecosystems in human imagination It also means to develop a sensibility for the other in making sense of the world that today is largely shaped by humans Throughout history narratives stories images artistic expressions have all played a key role for imaginative ventures that allow the mind to imagine the past present and the future Language and communication can serve comprehension of an issue like climate change and provide a path in developing responsible responses to abstract problems of complex global future dimensions A Nation Divided: The Legacy of Broken Promises Pasquale De Marco,2025-07-23 A Nation Divided The Legacy of Broken Promises is a comprehensive examination of one of the most enduring and complex conflicts in American history the Navajo Hopi Land Dispute For over a century the Navajo and Hopi peoples have been embroiled in a bitter legal battle over their ancestral lands a battle that has left a lasting legacy of pain suffering and division This book delves into the historical roots of the dispute exploring the broken promises and betrayals that have shaped the relationship between the two tribes and the United States government It examines the legal challenges and court rulings that have defined the boundaries of the Navajo and Hopi reservations and analyzes the ongoing negotiations and legal disputes that have characterized this conflict for decades Beyond the legal and historical dimensions of the dispute this book also explores the profound social and economic impact it has had on the Navajo and Hopi peoples It examines the displacement and relocation of thousands of people the cultural and spiritual losses suffered by both tribes and the economic and social disparities that have emerged as a result of the conflict The book also highlights the environmental

concerns that have arisen from the land dispute including the impact of mining and other forms of development on the fragile ecosystem of the Colorado Plateau. It examines the water rights and scarcity issues that have further complicated the conflict and discusses the role of conservation efforts and environmental stewardship in shaping the future of the region. *A Nation Divided* is not simply a recitation of historical events and legal battles. It is a call to action, a plea for reconciliation and healing. It argues that the Navajo Hopi Land Dispute is a microcosm of the larger issues facing Native Americans in the United States today and that addressing this conflict is essential for building a more just and equitable future for all Americans. River Flowing from the Sunrise James M. Aton, Robert S.

McPherson, 2000-12-15. The authors recount twelve millennia of history along the lower San Juan River, much of it the story of mostly unsuccessful human attempts to make a living from the river's arid and fickle environment. From the Anasazi to government dam builders, from Navajo to Mormon herders and farmers, from scientific explorers to busted miners, the San Juan has attracted more attention and fueled more hopes than such a remote unpromising and muddy stream would seem to merit.

Living Through the Generations Joanne McCloskey, 2007-09-06. Navajo women's lives reflect the numerous historical changes that have transformed the Navajo way. At the same time, in their behavior, beliefs, and values, women preserve the legacy of Navajo culture passed down through the generations. By comparing and contrasting three generations of Navajo women—grandmothers, mid-life mothers, and young mothers—similarities and differences emerge in patterns of education, work, family life, and childbearing. Women's roles as mothers and grandmothers are central to their respected position in Navajo society. Mothers bestow membership in matrilineal clans at birth and follow the example of the beloved deity Changing Woman. As guardians of cultural traditions, grandmothers actively plan and participate in ceremonies such as the Kinaald, the puberty ceremony for their granddaughters. Drawing on ethnographic interviews with 77 women in Crownpoint, New Mexico, and surrounding chapters in the Eastern Navajo Agency, Joanne McCloskey examines the cultural traditions evident in Navajo women's lives. Navajo women balance the demands of Western society with the desire to preserve Navajo culture for themselves and their families.
