Sunset Fire Rainbow Drawing on such common occurrences of light Navajo artists have crafted an uncommon array of design in colored glass beads Beadwork is an art form introduced to the Navajos through other Indian and Euro American contacts but it is one that they have truly made their own More than simple crafts Navajo beaded designs are architectures of light Ellen Moore has written the first history of Navajo beadwork belts and hatbands baskets and necklaces in a book that examines both the influence of Navajo beliefs in the creation of this art and the primacy of light and color in Navajo culture Navajo Beadwork Architectures of Light traces the evolution of the art as explained by traders Navajo consultants and Navajo beadworkers themselves It also shares the visions words and art of 23 individual artists to reveal the influences on their creativity and show how they go about creating their designs As Moore reveals Navajo beadwork is based on an aggregate of beliefs categories and symbols that are individually interpreted and transposed into beaded designs Most designs are generated from close observation of light in the natural world then structured according to either Navajo tradition or the newer spirituality of the Native American Church For many beadworkers creating designs taps deeply embedded beliefs so that beaded objects reflect their thoughts and prayers their aesthetic sensibilities and their sense of being Navajo but above all their attention to light and its properties No other book offers such an intimate view of this creative process and its striking color plates attest to the wondrous results Navajo Beadwork Architectures of Light is a valuable record of ethnographic research and a rich source of

artistic insight for lovers of beadwork and Native American art

Dreaming of Sheep in Navajo Country Marsha Weisiger, 2011-11-15 Dreaming of Sheep in Navajo Country offers a fresh interpretation of the history of Navajo Din pastoralism The dramatic reduction of livestock on the Navajo Reservation in the 1930s when hundreds of thousands of sheep goats and horses were killed was an ambitious attempt by the federal government to eliminate overgrazing on an arid landscape and to better the lives of the people who lived there Instead the policy was a disaster resulting in the loss of livelihood for Navajos especially women the primary owners and tenders of the animals without significant improvement of the grazing lands Livestock on the reservation increased exponentially after the late 1860s as more and more people and animals hemmed in on all sides by Anglo and Hispanic ranchers tried to feed themselves on an increasingly barren landscape At the beginning of the twentieth century grazing lands were showing signs of distress As soil conditions worsened weeds unpalatable for livestock pushed out nutritious native grasses until by the 1930s federal officials believed conditions had reached a critical point Well intentioned New Dealers made serious errors in anticipating the human and environmental consequences of removing or killing tens of thousands of animals Environmental historian Marsha Weisiger examines the factors that led to the poor condition of the range and explains how the Bureau of Indian Affairs the Navajos and climate change contributed to it Using archival sources and oral accounts she describes the importance of land and stock animals in Navajo culture By positioning women at the center of the story she demonstrates the place they hold as significant actors in Native American and environmental history Dreaming of Sheep in Navajo Country is a compelling and important story that looks at the people and conditions that contributed to a botched policy whose legacy is still felt by the Navajos and their lands today

Kaplan,2014-11-12 Having reported on some of the world's most violent least understood regions in his bestsellers *Balkan Ghosts* and *The Ends of the Earth* Robert Kaplan now returns to his native land the United States of America Traveling like Tocqueville and John Gunther before him through a political and cultural

landscape in transition Kaplan reveals a nation shedding a familiar identity as it assumes a radically new one An Empire Wilderness opens in Fort Leavenworth Kansas where the first white settlers moved into Indian country and where Manifest Destiny was born In a world whose future conflicts can barely be imagined it is also the place where the army trains its men to fight the next war A nostalgic view of the United States is deliberately cultivated here Kaplan writes as if to bind the uncertain future to a reliable past From Fort Leavenworth Kaplan travels west to the great cities of the heartland to St Louis once a glorious shipping center expected to outshine imperial Rome and now touted with its desolate inner city and miles of suburban gated communities as the most average American city Kaplan continues west to Omaha down through California north from Mexico across Arizona New Mexico and Texas up to Montana and Canada and back through Oregon He visits Mexican border settlements and dust blown county sheriffs offices Indian reservations and nuclear bomb plants cattle ranches in the Oklahoma Panhandle glacier mantled forests in the Pacific Northwest swanky postsuburban sprawls and grim bus terminals and comes at last to the great battlefield at Vicksburg Mississippi where an earlier generation of Americans gave their lives for their vision of an American future But what if anything he asks will today s Americans fight and die for At Vicksburg Kaplan contemplates the new America through which he has just traveled an America of sharply polarized communities that draws its population from pools of talent far beyond its borders an America where the distance between winners and losers grows exponentially as corporations assume government functions and the wealthy find themselves more closely linked to their business associates in India and China than to their poorer neighbors a few miles away an America where old loyalties and allegiances are vanishing and new ones are only beginning to emerge The new America he found is in the pages of this book Kaplan gives a precise and chilling vision of how the most successful nation the world has ever known is entering the final and highly uncertain phase of its history
