Arms Diffusion THomas W. Zarzecki,2018-12-20 Weapons proliferation is one of the most pressing global concerns following the end of the Cold War Despite the absence of an overarching superpower conflict armaments and related technologies have continued to spread throughout the international system This has been particularly true in areas like East Asia and the Middle East where the traditional two party arms races are not readily apparent This text addresses these concerns and shortcomings using data on fourteen specific military technological innovations that diffused throughout the international system from 1960 to 1997

Command at Sea Michael A. PALMER,2009-06-30 In this grand history of naval warfare Palmer observes five centuries

of dramatic encounters under sail and steam From reliance on signal flags in the seventeenth century to satellite communications in the twenty first admirals looked to the next advance in technology as the one that would allow them to control their forces But while abilities to communicate improved Palmer shows how other technologies simultaneously shrank admirals windows of decision The result was simple if not obvious naval commanders have never had sufficient means or time to direct subordinates in battle *Japan, Australia and Asia-Pacific Security* Brad Williams, Andrew Newman, 2006-09-27 The threats to security in Southeast Asia have been serious and constant since the end of the Second World War This book provides an absorbing account of the evolution of Australia Japan defence contacts from the early post war period to the present *Soviet Cold War Guided Missile Cruisers* Edward Hampshire, 2017-01-26 Heavily armed and formidable guided missile cruisers formed the core of the Soviet Navy during the Cold War From the last class of conventional Sverdlov class cruisers through to increasingly complex and formidable missile cruisers these ships ensured that NATO took the Soviet naval threat seriously *Soviet Cold War Guided Missile Cruisers* covers all classes of these impressive warships from the early Sverdlov through the Kynda Kresta Kara and Slava to the enormous Kirov classes Together these vessels marked the apogee of Soviet naval technology and capability and they remain today the largest non aircraft carrier warships built since 1945 Containing material previously only available in Russian and fully researched from specialist defence journals this comprehensive volume examines the design development and intended role of these impressive hi tech warships and recounts their dramatic operational history as NATO and Soviet warships faced off against each other during the long Cold War at sea
