**History of United States Naval Operations in World War II. Volume II** Samuel Eliot Morison, 1954      **History of Alaska , Volume II** Jonathan M. Nielson, Ph.D., 2018-03-01

The most significant military development to touch Alaska during the interwar years was the advent of air power an innovation that completely altered Alaska's strategic position Suddenly the world became smaller as areas once thought safely distant from potential enemies became vulnerable Nowhere was this more evident than in the Pacific whose countless islands became potential advanced air bases As air technology improved the ability of long range bombers and by the 1930s of carrier aircraft to penetrate American airspace was a development of far reaching significance While such warnings were largely limited to a handful of air power advocates their vocal advocacy constituted nothing less than an insurrection a revolution in military thinking fought against entrenched military conservatism cultural aversion to change fears of budget cuts and War Department lethargy Indeed it was the air power crusader General Billy Mitchell who aggressively fought to convince the War and Navy Departments to embrace the new doctrine of offensive air power Mitchell came to understand Alaska's strategic importance early on Consequently he saw the Aleutians as a vulnerability if left unguarded Japan could creep up and by establishing air dominance take Alaska and Canada's West Coast But he also saw Alaska as a strategic base from which American planes could reduce Tokyo to powder Prophetically in 1923 Mitchell forecast precisely the military threat and strategic arguments that would shape military thinking almost twenty years later I am thinking of Alaska In an air war if we were unprepared Japan could take it away from us first by dominating the sky and creeping up the Aleutians By the mid to late 1930s military and civilian advocates of air power and more visionary strategists were beginning to make their voices heard in Congress and elsewhere decrying Alaska's military vulnerability Between 1933 and 1944 no one was more adamant than Alaska's Delegate in Congress Anthony Joseph Tony Dimond who challenged the nation to defend itself by defending Alaska To Dimond it seemed poor strategy to fortify one Pacific base Hawaii while ignoring another Alaska Dimond's campaign was strengthened by passage of the Wilcox Bill sponsored by Representative J Mark Wilcox D Florida officially known as the National Air Defense Act This truly significant legislation authorized the location and construction of military airfields throughout the United States as a general defense preparedness measure Alaska was recognized as one of the nation's six strategic regions and two bases one at Anchorage the other at Fairbanks were recommended in part because Alaska was closer to Japan than it is to the center of the continental United States Fortunately for Alaska defense advocates General Douglas MacArthur stepped down as Chief of Staff of the Army and was replaced by Major General Malin Craig in October 1935 Craig and Brigadier General Stanley D Embick advocated a substantial reconfiguration of Plan Orange arguing that the Philippines presented an invitation to attack and should be neutralized in favor defending the Alaska Hawaii Panama Triangle Both the Army and Navy were charged with defending Alaska as far west as Dutch Harbor and the army pledged to mobilize 6 600 troops in Alaska within a month of

attack by Japan In contemplating the defense of Alaska the Army General Staff formulated five priority objectives first increase the Alaska garrison second establish a major base for Army operations near Anchorage third develop a network of air bases within Alaska fourth garrison these bases with combat troops and fifth protect the naval installations at Sitka Kodiak and Dutch Harbor Alaska was about to go to war

**Military Effectiveness: Volume 2, The Interwar Period** Allan R. Millett, Williamson Murray, 2010-08-09 This three volume study examines the questions raised by the performance of the military institutions of France Germany Russia the United States Great Britain Japan and Italy in the period from 1914 to 1945 Leading military historians deal with the different national approaches to war and military power at the tactical operational strategic and political levels They form the basis for a fundamental re examination of how military organizations have performed in the first half of the twentieth century Volume 2 covers the interwar period Volumes 1 and 3 address World War I and World War II respectively Now in a new edition with a new introduction by the editors these classic volumes will remain invaluable for military historians and social scientists in their examination of national security and military issues They will also be essential reading for future military leaders at Staff and War Colleges

The Last Century of Sea Power, Volume 2 H. P. Willmott, 2010-03-22 An important contribution a thoughtful account of the years preceding the Second World War and at much greater length of the war itself History In this second volume of his history of naval power in the 20th century H P Willmott follows the fortunes of the established seafaring nations of Europe along with two upstarts the United States and Japan Emerging from World War I in command of the seas Great Britain saw its supremacy weakened through neglect and in the face of more committed rivals Britain's grand Coronation Review of 1937 marked the apotheosis of a sea power slipping into decline Meanwhile Britain's rivals and soon to be enemies were embarking on significant naval building programs that would soon change the nature of war at sea in ways that neither they nor their rivals anticipated By the end of a new world war the United States had taken command of two oceans having placed its industrial might behind technologies that further defined the arena of naval power above and below the waves where stealth and the ability to strike at great distance would soon rewrite the rules of war and of peace This splendid volume further enhances Willmott's stature as the dean of naval historians Praise for The Last Century of Sea Power series The author dean of naval historians provides a sweeping look at and analysis of the transformation of naval power Willmott is fearless in his judgments Seapower H P Willmott is the finest naval historian and among the finest historians of any discipline writing today Bernard D Cole author of The Great Wall at Sea

*From the Dreadnought to Scapa Flow, Volume II* Arthur Marder, 2014-06-19 The five volumes that constitute Arthur Marder's From the Dreadnought to Scapa Flow represented arguably the finest contribution to the literature of naval history since Alfred Mahan A J P Taylor wrote that his naval history has a unique fascination To

**Maritime Strategy and Sea Denial** Milan Vego, 2018-12-07 This book focuses on the theory and practice of maritime strategy and operations by the weaker powers at sea Illustrated by examples from naval and military history the book

explains and analyzes the strategies of the weaker side at sea in both peacetime and wartime in defense versus offense the main prerequisites for disputing control of the sea and the conceptual framework of disputing control of the sea It also explains and analyzes in some detail the main methods of disputing sea control avoiding seeking decisive encounters weakening enemy naval forces over time counter containment of enemy naval forces destroying the enemy s military economic potential at sea attacks on the enemy coast defense of the coast defense capturing important positions basing areas and defense capturing of a choke point A majority of the world s navies are currently of small or medium size In the case of a war with a much stronger opponent they would be strategically on the defensive and their main objective then would be to dispute control of the sea by a stronger side at sea This book provides a practical guide to such a strategy This book would be of much interest to students of naval power maritime security strategic studies and military naval history

**United States Naval Operations in World War II.** Samuel Eliot Morison,1962 US Navy Escort Carriers 1942-45 Mark Stille,2017-10-19 While not as famous as their larger and faster sister ships such as the Essex and Yorktown class carriers escort carriers made an enormous contribution towards Allied victory both in the Pacific and Atlantic theatres Rather than relying on size or speed it was their sheer numbers that made them so effective Indeed the Casablanca class escort carrier was the most produced aircraft carrier in history In partnership with the Royal Navy they provided the backbone of Allied anti submarine efforts in the Atlantic finally and irrevocably turning the tide of the war against the U boats in 1943 In the Pacific they provided the air cover for the series of landings which led to the doorstep of Japan by 1945 These robust ships faced submarine air and even surface threats from the Japanese but proved able to contend with everything thrown their way Fully illustrated with contemporary photographs and unique specially commissioned artwork this book shines a new light on these unjustly overlooked workhorses of the US Navy ships that helped usher in the Allied victory over the Axis powers in the Atlantic and Pacific

Army,1928 Technical Abstract Bulletin Defense Documentation Center (U.S.),1964 *History of Acquisition in the Department of Defense, Volume 1* Elliott V. Converse,2012-06-12 This volume is a history of the acquisition of major weapon systems by the United States armed forces from 1945 to 1960 the decade and a half that spanned the Truman and Eisenhower administrations following World War II These instruments of warfare aircraft armored vehicles artillery guided missiles naval vessels and supporting electronic systems when combined with nuclear warheads gave the postwar American military unprecedented deterrent and striking power 1 They were also enormously expensive The volume is organized chronologically with individual chapters addressing the roles of OSD the Army Navy and Air Force in two distinct periods The first roughly coinciding with President Truman s tenure covers the years from the end of World War II

through the end of the Korean War in 1953 The second spans the two terms of the Eisenhower presidency from 1953 through early 1961 The year 1953 marked a natural breakpoint between the two periods The Korean War had ended President Eisenhower and his defense team began implementing the New Look a policy and strategy based on nuclear weapons which they believed would provide security and make it possible to reduce military spending The New Look s stress on nuclear weapons along with the deployment of the first operational guided missiles and the rapid advances subsequently made in nuclear and missile technology profoundly influenced acquisition in the services throughout the 1950s and the remainder of the century As used in this study the term acquisition encompasses the activities by which the United States obtains weapons and other equipment In surveying the history of acquisition between 1945 and 1960 this study discusses or refers in passing to many of the hundreds of weapon system programs initiated by the services in that period but it is not a weapons encyclopedia Instead it investigates a few major programs in depth in the belief that such detailed examination best reveals the evolution of acquisition policies organizations and processes and the various forces influencing weapons programs

The Battle of

Jutland Richard Osborne,2016-07-31 The Battle of Jutland was the greatest naval engagement of the First World War if not any war Admiral Scheer had adopted a policy of launching attacks against the British coast What he did not know was that the British had broken his naval codes and that they knew of his plans Consequently when Scheer threw his entire fleet in a mission to attack the British mainland in May 1916 he could not know that the Royal Navy at Scapa Flow were underway This is a fresh account of this greatest naval engagement it offers fascinating insight into the events preceding the action the tactics during the battle and the political and military fall out The book draws on released official records and personal accounts Jellicoe failed to ensnare Scheer and the bulk of the German fleet which escaped battered but intact The Germans knew however that despite their great fleet it was the Royal Navy that controlled the North Sea
