Cash For Your Trash Carl Zimring, 2005-09-06

Over the past two decades concern about the environment has brought with it a tremendous increase in recycling in the United States and around the world For many it has become not only a civic but also a moral obligation Long before our growing levels of waste became an environmental concern however recycling was a part of everyday life for many Americans and for a variety of reasons From rural peddlers who traded kitchen goods for scrap metal to urban children who gathered rags in exchange for coal individuals have been finding ways to reuse discarded materials for hundreds of years In *Cash for Your Trash* Carl A Zimring provides a fascinating history of scrap recycling from colonial times to the present Moving beyond the environmental developments that have shaped modern recycling enterprises Zimring offers a unique cultural and economic portrait of the private businesses that made large scale recycling possible Because it was particularly common for immigrants to own or operate a scrap business in the nineteenth century the history of the industry reveals much about ethnic relationships and inequalities in American cities Readers are introduced to the scrapworkers brokers and entrepreneurs who like the materials they handled were often marginalized Integrating findings from archival industrial and demographic records *Cash for Your Trash* demonstrates that over the years recycling has served purposes far beyond environmental protection Its history and evolution reveals notions of Americanism the immigrant experience and the development of small business in this country

Chosen Capital Rebecca Kobrin, 2012-08-20 At which moments and in which ways did Jews play a central role in the development of American capitalism Many popular writers address the intersection of Jews and capitalism but few scholars perhaps fearing this question s anti Semitic overtones have pondered it openly *Chosen Capital* represents the first historical collection devoted to this question in its analysis of the ways in which Jews in North America shaped and were shaped by America s particular system of capitalism Jews fundamentally molded aspects of the economy during the century when American capital was being redefined by industrialization war migration and the emergence of the United States as a superpower Surveying such diverse topics as Jews participation in the real estate industry the liquor industry and the scrap metal industry as well as Jewish political groups and unions bent on reforming American capital such as the American Labor Party and the International Ladies Garment Workers Union contributors to this volume provide a new prism through which to view the Jewish encounter with America The volume also lays bare how American capitalism reshaped Judaism itself by encouraging the mass manufacturing and distribution of foods like matzah and the transformation of synagogue cantors into recording stars These essays force us to rethink not only the role Jews played in American economic development but also how capitalism has shaped Jewish life and Judaism over the course of the twentieth century Contributors Marni Davis Georgia State University Phyllis Dillon independent documentary producer textile conservator museum curator Andrew Dolkart Columbia University Andrew Godley Henley Business School
