Roberts, Jr., 2017-07-30 This is an excellent examination of one of the most important Allied naval weapons of the Second World War HistoryOfWar.org The Landing Craft Vehicle Personnel LCVP for short or simply the Higgins boat to most of its users was one of the keystones of victory in the Second World War Like the army's Jeep or the Air Force's C 47 transport it served in almost every theatre of war performing unglamorous but vital service in the Allied cause Derived from a humble workboat the Higgins boatbuilding company designed a brilliantly simple craft that performed its role so well that over 23 000 of them were constructed indeed a high proportion of all the troops landed on enemy beaches came ashore from LCVPs an achievement that led General Eisenhower to describe it as the boat that won the war As Eisenhower had more experience of major amphibious operations than any other commander it is a judgment to be taken seriously This book combines the first in depth history of the development and employment of the type with a detailed description of its construction machinery performance and handling based on the author's first hand experience masterminding the restoration of a wartime example for his museum Well illustrated with plans and photographs it will be of interest to modelmakers and enthusiasts both military and naval An invaluable record for military historians and the designers builders and operators of the successor boats The photographs and drawings of every imaginable aspect of the LVCPs are beyond price A magnificent contribution to both naval history and the future planning of amphibious operations Ausmarine     *MotorBoating* ,1944-11     MotorBoating ,1944-08     **Crash Boat** George D.
