Nazi Spies In America Hitlers Undercover War:

Nazi Spies in America William B. Breuer, 1990 *Hitler and America* Klaus P. Fischer, 2011-05-26 In February 1942 barely two months after he had declared war on the United States Adolf Hitler praised America's great industrial achievements and admitted that Germany would need some time to catch up. The Americans he said had shown the way in developing the most efficient methods of production especially in iron and coal which formed the basis of modern industrial civilization. He also touted America's superiority in the field of transportation particularly the automobile. He loved automobiles and saw in Henry Ford a great hero of the industrial age. Hitler's personal train was even code named Amerika. In *Hitler and America* historian Klaus P. Fischer seeks to understand more deeply how Hitler viewed America the nation that was central to Germany's defeat. He reveals Hitler's split minded image of America. America and Amerika. Hitler would loudly call the United States a feeble country while at the same time referring to it as an industrial colossus worthy of imitation. Or he would belittle America in the vilest terms while at the same time looking at the latest photos from the United States watching American films and amusing himself with Mickey Mouse cartoons. America was a place that Hitler admired for the can do spirit of the American people which he attributed to their Nordic blood and envied for its enormous territorial size abundant resources and political power. Amerika however was to Hitler a mongrel nation grown too rich too soon and governed by a capitalist elite with strong ties to the Jews. Across the Atlantic President Franklin Delano Roosevelt had his own far more realistically grounded views of Hitler. Fischer contrasts these with the misconceptions and misunderstandings that caused Hitler in the end to see only Amerika not America and led to his defeat.

Spying for Hitler Norman Ridley, 2024-12-30 When Hitler was striving for recognition and relevance in the political turmoil of the early Weimar years in Germany he gave little thought to the world on the other side of the Atlantic other than to nurture a constant nagging resentment over President Wilson's role in the post war evisceration of Germany at Versailles in 1919. It was the United States however that had bankrolled the German economy to substantially boost industrial production and employment in the 1920s and the evidence of American wealth and economic power was hard to ignore. Even when the Nazis took over in Germany after the elections of March 1933 Hitler's narrow vision was still concentrated on consolidating his power base in Germany itself and quickly thereafter expanded to take in the countries of Eastern Europe. What impressions he had of American culture and society were encapsulated in the trivialities and stereotypes of Hollywood movies depicting the wild west or the deprivations of the Great Depression. Despite its economic power nothing in Hitler's world view envisaged the United States as a potential player in European politics but the Germans intelligence services that he inherited were not so easily convinced. They had been aware of American power and influence since before the First World War and for them spying on the United States was nothing more than a continuation of their efforts to prevent that country thwarting German ambitions. There had been spectacular successes in the past such as the espionage attack that had wreaked massive

destruction in the Black Tom Island explosion on 30 July 1916 But overall the German agencies had gone to great lengths and considerable expense without achieving their ambitions and failed to prevent American participation in the war With another war in prospect the Germans once again made plans to influence American policy and do what they could to keep their forces out of European affairs Spying for Hitler traces the history of German espionage in the United States and describes in detail the personnel involved and operations they conducted all through the 1930s and early 1940s It examines the training of German agents and the espionage techniques they employed The way in which the FBI reacted to the threat in particular from the Griehl Lonkowski spy ring shows how Hoover's Feds were initially slow to appreciate the danger but soon learned the lessons This was later to put them on a sounder footing to counter further attempts to infiltrate agents into the United States This was most spectacularly displayed in Operation Pastorius when saboteurs were landed on the American East Coast from U boats This book also examines the way in which the Germans used sleeper agents and also describes how the FBI successfully turned German agents to feed disinformation to Abwehr headquarters in Berlin It describes how espionage missions played out and the fate of those involved *The Air-Raid Warden Was a Spy* William B.
