## Nazis Strike:

**Screen Nazis** Sabine Hake, 2012-08-31 From the late 1930s to the early twenty first century European and American filmmakers have displayed an enduring fascination with Nazi leaders rituals and symbols making scores of films from *Confessions of a Nazi Spy* 1939 and *Watch on the Rhine* 1943 through *Des Teufels General* *The Devil's General* 1955 and *Pasqualino settebellezze* *Seven Beauties* 1975 up to *Der Untergang* *Downfall* 2004 *Inglourious Basterds* 2009 and beyond Probing the emotional sources and effects of this fascination Sabine Hake looks at the historical relationship between film and fascism and its far reaching implications for mass culture media society and political life In confronting the specter and spectacle of fascist power these films not only depict historical figures and events but also demand emotional responses from their audiences infusing the abstract ideals of democracy liberalism and pluralism with new meaning and relevance Hake underscores her argument with a comprehensive discussion of films including perspectives on production history film authorship reception history and questions of performance spectatorship and intertextuality Chapters focus on the Hollywood anti Nazi films of the 1940s the West German anti Nazi films of the 1950s the East German anti fascist films of the 1960s the Italian Naziploitation films of the 1970s and issues related to fascist aesthetics the ethics of resistance and questions of historicization in films of the 1980s 2000s from the United States and numerous European countries

*Women of War* Suzanne Cope, 2025-04-29 The gripping true and untold history of the Italian anti fascist resistance during World War II told through the stories of four spectacularly courageous women fighters From underground soldiers to intrepid spies *Women of War* unearths the hidden history of the brave women who risked their lives to overthrow the Nazi occupation and liberate Italy Using primary sources and brand new scholarship historian Suzanne Cope illuminates the roles played by women while Italians struggled under dual foes Nazi invaders and Italian fascist loyalists Cope's research and storytelling introduces four brave and resourceful women who risked everything to overthrow the Nazi occupation and pry their future from the fascist grasp We meet Carla Capponi in Rome where she made bombs in an underground bunker then ferried them to their deadly destination wearing lipstick and a trenchcoat and Bianca Guidetti Serra who rode her bicycle up switchbacks in the Alps dodging bullets while delivering bags of clandestine newspapers and munitions to the anti fascist armies hidden in the mountains In Florence the young future author of Italy's new constitution Teresa Mattei carried secret messages and hid bombs while Anita Malavasi led troops across the Apennine Mountains *Women of War* brings their experiences as underground resistance fighters partisan combatants spies and saboteurs to life Essential and original *Women of War* offers not only a reexamination of the elision of women from vital WWII history but also a valuable perspective on the ongoing fight for gender equality and social justice After all these were the women who launched a feminist movement as they fought for the future of their country and what that could mean for its women all while under Nazi and fascist fire

*Hollywood's War with Poland, 1939-1945* M.B.B. Biskupski, 2010-01-08 This passionate carefully researched richly detailed well written study

reveals the political motives behind WWII Hollywood's portrayal of Poles. Choice During World War II Hollywood studios supported the war effort by making patriotic movies designed to raise the nation's morale. Often the characterizations were as black and white as the movies themselves. Americans and their allies were heroes while everyone else was a villain. The peoples of Norway, France, Czechoslovakia, and England were all good because they had been invaded or victimized by Nazi Germany. Yet Poland, the first country to be invaded by the Third Reich, was repeatedly represented in a negative light. In this prize-winning study, Polish historian M. B. B. Biskupski explores why Biskupski presents a close critical study of prewar and wartime films such as *To Be or Not to Be*. In *Our Time and None Shall Escape*, Through memoirs, letters, diaries, and memoranda written by screenwriters, directors, studio heads, and actors, Biskupski examines how the political climate and especially pro-Soviet sentiment influenced Hollywood films of the time. Winner of the Oscar Halecki Prize, A Choice Outstanding Academic Title. *New Political Ideas in the Aftermath of the Great War*, Alessandro Salvador, Anders G. Kjølseth, 2016-11-10. This edited collection presents new research on how the Great War and its aftermath shaped political thought in the interwar period across Europe. Assessing the major players of the war as well as more peripheral cases, the contributors challenge previous interpretations of the relationship between veterans and fascism and provide new perspectives on how veterans tried to promote a new political and social order. Those who had frontline experience of the First World War committed themselves to constructing a new political and social order in war-torn Europe, shaped by their experience of the war and its aftermath. A number of them gave voice to the need for a world order free from political and social conflict, and all over Europe veterans imagined a third way between capitalist liberalism and state-controlled socialism. By doing so, many of them moved towards emerging fascist movements and became, in some cases, unwillingly the heralds of totalitarian dictatorships. **The British Press and Nazi Germany**, Kylie Galbraith, 2020-12-10. What was known and understood about the nature of the Nazi dictatorship in Britain prior to war in 1939? How was Nazism viewed by those outside of Germany? The British Press and Nazi Germany considers these questions through the lens of the British press. Until now, studies that centre on British press attitudes to Nazi Germany have concentrated on issues of foreign policy. The focus of this book is quite different. In using material that has largely been neglected, Kylie Galbraith examines what the British press reported about life inside the Nazi dictatorship. In doing so, the book imparts important insights into what was known and understood about the Nazi revolution. And because the overwhelming proportion of the British public's only means of news was the press, this volume shows what people in Britain could have known about the Nazi dictatorship. It reveals what the British people were being told about the regime, specifically the destruction of Weimar democracy, the ruthless persecution of minorities, the suppression of the churches, and the violent factional infighting within Nazism itself. This pathbreaking examination of the British press coverage of Nazism in the 1930s greatly enhances our knowledge of the fascist regime with which the British Government was attempting to reach agreement at the time. **The Rise of Global Powers** Anthony D'Agostino, 2011-11-17 Does a system of great powers necessarily imply a struggle for world primacy Do great states merely hold onto what is theirs or do they reach for more Anthony D Agostino offers a fascinating new answer to these questions through a fundamental reassessment of the international history of the first half of the twentieth century From the spatial limits of a purely European great power politics the book looks out to the new horizon of world politics From the time limits of 1914 to 1945 it considers the interface with nineteenth century imperialism at one end and the impact of the world wars on the Cold War at the other This is a global retelling of the expansion of Europe coming up against its limits in the most violent conflicts and explosive social movements yet known to history the two world wars the Great Depression and the Russian and Chinese revolutions **Days of Remembrance, April 26-May 3, 1992**

, 1992 **Geopolitics, Geography and Strategic History** Geoffrey Sloan, 2017-02-17 This volume examines geopolitics by looking at the interaction between geography strategy and history This book addresses three interrelated questions why does the geographical scope of political objectives and subsequent strategy of states change How do these changes occur Over what period of time do these changes occur The theories of Sir Halford Mackinder and Nicholas Spykman are examined in order to provide an analytical narrative for five case studies four historical and one contemporary Taken together they offer the prospect of converting descriptions of historical change into analytic explanations thereby highlighting the importance of a number of commonly overlooked variables In addition the case studies will illuminate the challenges that states face when attempting to change the scope of their foreign policy and geo strategy in response to shifts in the geopolitical reality This book breaks new ground in seeking to provide a way to understand why and how the geographical scope of political objectives and subsequent strategy both expands and contracts This book will be of much interest to students of geopolitics
