Markovits,2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When *The Meritocracy Trap* reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people **Children's Books in Print** R R Bowker Publishing,Bowker,1999-12

*The Greatest Teams Never* Tony Del Prete, 2021-11-02 *The Greatest Teams Never* Sports Memories of Near Misses Total Messes and Not so magical Moments chronicles the despair and disappointment of 40 remarkable teams that are remembered more for what they didn't accomplish than their successes. The book revisits some of the most memorable and unbelievable events in the annals of sports while at the same time recognizing those deemed second best as unofficially great even if history may never remember them that way. Each chapter comprises teams with similar notoriety and highlights a particular nuance of their ultimate demise. There is the 2007 New England Patriots stunning Super Bowl loss to the NY Giants headlining 'You Can't Win 'em All'. Among other oddities in sports, the chapter 'Better Lucky than Good' examines the Immaculate Reception and divergent outcomes for the Pittsburgh Steelers and Oakland Raiders after their historic playoff game. Once long suffering Red Sox and Cubs fans will appreciate the chapter 'Wait til Near Even'. International teams such as Brazil futbol and the USSR hockey are showcased in 'C'est La Vie'. Using hundreds of quotes from players and coaches, statistics and distant replay, the book explores both the promise and improbable ending for some truly great teams. Hear in their own words how several Golden State Warriors blamed themselves for blowing the 2016 NBA finals that Mickey Mantle and other Yankees greats wouldn't admit the 1960 world champion Pirates were the better team. Heartbroken college athletes who try to make sense of one loss seasons and more. From Baby Boomers to Millennials, avid sports fans to casual observers, there is something for anyone who follows sports, played sports or simply roots for their hometown team. Each chapter is filled with reasons to consider the losers as still great and ends with a Claim to Fame providing some level of vindication for players and their fans. After all, everyone deserves a second chance, even the greatest teams never. **Hoops** Thomas Aiello, 2022-02-25 From its early days as a sport to build muscular Christianity among young men flooding nineteenth century cities to its position today as a global symbol of American culture, basketball has been a force in American society. It grew through high school gymnasiums, college pep rallies, and the fits and starts of professionalization. It was a playground game, an urban game tied to all of the caricatures that were associated with urban culture. It struggled with integration and representations of race. Today, basketball's influence seeps into film, music, dance, and fashion. *Hoops* tells the story of the reciprocal relationship between the sport and the society that received it. While many books have celebrated specific aspects of the game, Thomas Aiello presents the only contemporary cultural history of the sport from the street to the highest levels of professional men's and women's competition. He argues that the game has existed in a reciprocal relationship with the broader culture, both embodying conflicts over race, class, and gender and serving as a public theater for them. Aiello places cultural icons like Bill Russell, Michael Jordan, and Kobe Bryant in the context of their times and explores how the sport negotiated controversies and scandals. *Hoops* belongs on the bookshelf of every reader interested in the history of basketball, sports, race, urban life, and pop culture in America. *The Crisis*, 1999-03 *The Crisis*, founded by W. E. B. Du Bois as the official publication of the NAACP, is a journal of civil rights, history, politics, and culture and seeks to educate and challenge its

readers about issues that continue to plague African Americans and other communities of color For nearly 100 years The Crisis has been the magazine of opinion and thought leaders decision makers peacemakers and justice seekers It has chronicled informed educated entertained and in many instances set the economic political and social agenda for our nation and its multi ethnic citizens **Commodified and Criminalized** David J. Leonard,C. Richard King,2010-12-28 Commodified and Criminalized examines the centrality of sport to discussions of racial ideologies and racist practices in the 21st century It disputes familiar refrains of racial progress arguing that athletes sit in a contradictory position masked by the logics of new racism and dominant white racial frames Contributors discuss athletes ranging from Tiger Woods and Serena Williams to Freddy Adu and Shani Davis Through dynamic case studies Commodified and Criminalized unpacks the conversation between black athletes and colorblind discourse while challenging the assumptions of contemporary sports culture The contributors in this provocative collection push the conversation beyond the playing field and beyond the racial landscape of sports culture to explore the connections between sports representations and a broader history of racialized violence
