Paston Family In The Fifteenth Century Vol 1 The First Phase:

The Paston Family in the Fifteenth Century: Volume 1, The First Phase Colin Richmond, 2002-05-16 This volume describes in lively and original style the beginnings of the family's gentility

The Paston Family in the Fifteenth Century Colin Richmond, 2000 This is the third and final volume in the trilogy by Colin Richmond on the Paston family in the 15th century completing the sequence which began with *The First Phase* and continued with *Fastolf's Will* This volume deals with the later years of the century and those topics and themes which arise at that point in the family's history The principal characters are John Paston II his younger brother John Paston III and their mother Margaret Paston Richmond deals with a variety of issues some of which have arisen in previous volumes and attempts some judgements on the role of the English gentry in the later middle ages

Blood and Roses - The Paston Family in the Fifteenth Century Helen Castor, 2025-05-24 The Wars of the Roses turned England upside down Between 1455 and 1485 four kings lost their thrones more than forty noblemen lost their lives on the battlefield or their heads on the block and thousands of the men who followed them met violent deaths Yet almost nothing is known about the thoughts and feelings of the people who lived through this bloody conflict whether kind of noble landowner or peasant Almost nothing but not quite As they made their way in a disintegrating world a Norfolk family called the Pastons were writing letters about politics about business about shopping about love and about each other Using these letters the oldest surviving family correspondence in English Helen Castor traces the extraordinary history of the Paston family across three generations *Blood Roses* tells the dramatic moving and intensely human story of how one family survived one of the most tempestuous periods in English history

The Paston Family in the Fifteenth Century: Volume 2, Fastolf's Will Colin Richmond, 2002-05-16 The Paston family have long been famous for the large collection of letters and papers which bear their name However only recently have the Paston Letters been used systematically by historians of fifteenth century England they are both attractive to read and fiendishly difficult to use as source material for the historian This the second volume in Colin Richmond's individual and compelling study of the Pastons describes the bitter disputes over the will of Sir John Fastolf d 1459 which dogged the family for many years and which hold a wider significance for the law English country society and the complex politics of the fifteenth century Professor Richmond uses his mastery of the Paston documents to illuminate many obscurities surrounding the will and at the same time creates an insightful and sympathetic picture of this fascinating often troubled family

Everyday Objects Tara Hamling, Catherine Richardson, 2016-12-14 This book is about the objects people owned and how they used them Twenty three specially written essays investigate the type of things that might have been considered everyday objects in the medieval and early modern periods and how they help us to understand the daily lives of those individuals for whom few other types of evidence survive for instance people of lower status and women of all status groups *Everyday Objects* presents new research by specialists from a range of disciplines to assess what the study of material culture can contribute to our understanding of medieval and

early modern societies Extending and developing key debates in the study of the everyday the chapters provide analysis of such things as ceramics illustrated manuscripts pins handbells carved chimneypieces clothing drinking vessels bagpipes paintings shoes religious icons and the built fabric of domestic houses and guild halls These things are examined in relation to central themes of pre modern history for instance gender identity space morality skill value ritual use belief public and private behaviour continental influence materiality emotion technical innovation status competition and social mobility This book offers both a collection of new research by a diverse range of specialists and a source book of current methodological approaches for the study of pre modern material culture The multi disciplinary analysis of these everyday objects by archaeologists art historians literary scholars historians conservators and museum practitioners provides a snapshot of current methodological approaches within the humanities Although analysis of material culture has become an increasingly important aspect of the study of the past previous research in this area has often remained confined to subject specific boundaries This book will therefore be an invaluable resource for researchers and students interested in learning about important new work which demonstrates the potential of material culture study to cut across traditional historiographies and disciplinary boundaries and access the lived experience of individuals in the past

Current Trends in Historical Sociolinguistics Cinzia Russi, 2016 The volume collects original studies highlighting contemporary trends in historical sociolinguistics as well as current research on the relationship between sociolinguistics and historical linguistics social motivations of language variation and change and corpus based studies Distinctive features of the book which make it appealing to a wider audience are the interdisciplinary nature of the chapters and the range of languages addressed

The Multilingual Origins of Standard English Laura Wright, 2020-09-07 Textbooks inform readers that the precursor of Standard English was supposedly an East or Central Midlands variety which became adopted in London that monolingual fifteenth century English manuscripts fall into internally cohesive Types and that the fourth Type dating after 1435 and labelled Chancery Standard provided the mechanism by which this supposedly Midlands variety spread out from London This set of explanations is challenged by taking a multilingual perspective examining Anglo Norman French Medieval Latin and mixed language contexts as well as monolingual English ones By analysing local and legal documents mercantile accounts personal letters and journals medical and religious prose multiply copied works and the output of individual scribes standardisation is shown to have been preceded by supralocalisation rather than imposed top down as a single entity by governmental authority Linguistic features examined include syntax morphology vocabulary spelling letter graphs abbreviations and suspensions social context and discourse norms pragmatics registers text types communities of practice social networks and the multilingual backdrop which was influenced by shifting socioeconomic trends

history And yet he has hitherto been overshadowed by his more illustrious contemporaries Alexander Brondarbit s meticulously researched and perceptive biography is overdue It establishes Wenlock as a major figure in his own right and records in vivid detail how this shrewd nobleman found his way through the brutal conflicts of his times Wenlock served in Henry V s military campaigns in France in the 1420s before moving on to a career in the royal households of Henry VI Margaret of Anjou and Edward IV As a diplomat he led multiple embassies to Burgundy and France and in addition to the kings he served he was closely connected with other notable figures of the age such as Richard Neville earl of Warwick But Wenlock s speciality was on the battlefield he took part in many raids skirmishes and sieges and in three major battles including the Battle of Tewkesbury in 1471 where he lost his life Using primary sources as well as contemporary assessments in chronicles and letters Alexander Brondarbit gives a nuanced description of the main episodes in Wenlock s long career and throws new light on the motivation of a man who has been labelled a Prince of Turncoats because of his frequent changes of allegiance
