School Tales Stories By Young Women:

School Tales Sharon Myrick, 2018-08-14 Contemporary legend says the business of high school is boring and must forever be that way that its sole purpose is to deposit tidbits of knowledge into young minds and standardize the way each attacks the world School Tales begs to differ As is made clear by its five spunky student narrators high school the home base social institution for teenagers exerts powerful agency over answers to fundamental questions Who am I What do I want to learn Am I able to direct my life Can I trust friends to be there for me How do I find a sense of purpose in contributing to our world and is a time of struggle with life's questions amidst intense pressure to make decisions by graduation and launch into adulthood Students in School Tales living in a small town of the southern Shenandoah Valley in Virginia encounter a number of personal and public issues including racism anxiety shame a cross country move gender identity immigration family instability depression lack of self direction abuse and law enforcement The lessons they learn in school include the meanings of freedom success friendship exploration inquiry confidence false either or choices and dreaming As these students take charge of their learning the true goal of high school emerges and the result is a truly heart warming view of students building what they would call a life worth living

Regendering the School Story Beverly Lyon Clark, 2004-08-02 In 18th through 20th century British and American literature school stories always play out the power relationships between adult and child They also play out gender relationships especially when females are excluded although most histories of the genre ignore the unusual novels that probe the gendering of school stories When the occasional man wrote about girls schools as Charles Lamb and H G Wells did he sometimes empowered his female characters granting them freedoms that he had experienced at school Women who wrote about boys schools often gave unusual emphasis to families and at times revealed the contradictions in the schoolyard code against telling tales or presented competing versions of masculinity such as the Christian gentleman versus the self made man Sometimes these middle class white women projected their sense of estrangement onto working class and minority women Sometimes they wrote school stories that were in dialog with other genres as when Mrs Henry Wood wrote a sensation story or like Louisa May Alcott they domesticated the boys school story giving prominence to a female viewpoint

Boy Crazy Janet Sayers, 2019-06-19 In answering these questions Janet Sayers highlights the revolution

wrought in both sexes psychology by adolescence particularly by its fantasies of divided selves and loves and of boy crazy grandiosity and romance Illustrated throughout with fascinating examples from a groundbreaking study of adolescent memories and dreams Boy Crazy presents an engaging account of this little researched period of human development Sayers also draws on her own work as a therapist and weaves in vignettes from fiction and film to demonstrate the significance we attach in adulthood to our experiences as adolescents She suggests that men and women respond differently to the sexual awakening that takes place during their teens and to their own memories of that part of their life In relating the findings of her research the author also explores to what extent the theories of Freud Jung and feminism shape our understanding of the formative effect of adolescent experiences and emotions Boy Crazy provides a fascinating insight into the repercussions of adolescence on our adult lives and loves and will appeal to the general and specialist reader alike **The Literary**

Gender in Contemporary Chinese Societies Shanshan Du, Ya-chen Chen, 2013-03-04 Recent attention to historical geographic and class differences in the studies of women and gender in China has expanded our understanding of the diversity and complexity of gendered China Nevertheless the ethnic dimension of this subject matter remains largely overlooked particularly concerning women's conditions and gender status Consequently the patriarchy and its oppression of

women among the Han the ethnic majority in China are often inaccurately or erroneously associated with the whole gendered heritage of China epitomized by the infamous traditions of footbinding and female infanticide Such academic and popular predisposition belies the fact that gender systems in China span a wide spectrum ranging from extreme Han patriarchy to Lahu gender egalitarianism The authors contributing to this book have collectively initiated a systematic effort to bridge the gap between understanding the majority Han and ethnic minorities in regard to women and gender in contemporary Chinese societies By achieving a quantitative balance between articles on the Han majority and those on ethnic minorities this book transcends the ghettoization of ethnic minorities in the studies of Chinese women and gender The eleven chapters of this volume are divided into three sections which jointly challenge the traditions and norms of Han patriarchy from various perspectives The first section focuses on gender traditions among ethnic minorities which compete with the norms of Han patriarchy The second section emphasizes the impact of radical social transformation on gender systems and practices among both Han and ethnic minorities The third section underscores socio cultural diversity and complexity in resistance to Han patriarchal norms from a broad perspective This book complements previous scholarship on Chinese women and gender by expanding our investigative lens beyond Han patriarchy and providing images of the multiethnic landscape of China By identifying the Han as an ethnically marked category and by bringing to the forefront the diverse gender systems of ethnic minorities this book encourages an increasing awareness of and sensitivity to the cross cultural diversity of gendered China both in academia and beyond
