## **Schooling In A Corporate Society The Political Economy Of Education In America:**

**Schooling in a Corporate Society** Martin Carnoy, 1972 Essays by educators and economists asserting that the American educational system promotes the interests of elite groups in preserving the status quo **Schooling in a Corporate Society**, 1977 **The Gates Foundation and the Future of US Public Schools** Philip E. Kovacs, 2010-11-01 There has been much public praise for the Bill and Melinda Gates Foundation's efforts to reform public education. However, few scholars have engaged substantively and critically with the organization's work. While the Gates Foundation is the single largest supporter by far of choice initiatives, particularly with regard to charter school formation, it is pushing public school privatization through a wide array of initiatives and in conjunction with a number of other foundations. What are the implications for a public system as control over educational policy and priority is concentrated under one of the richest people on the planet in ways that foster deunionization and teacher deskilling while homogenizing school models and curriculum? The Gates Foundation and the Future of US Public Schools addresses this crucial unanswered question while investigating the relationships between the Gates Foundation and other think tanks, government and corporate institutions.

**John Dewey: Political theory and social practice** J. E. Tiles, 1992 [Class, Politics and the Economy \(Routledge Revivals\)](#) Stewart Clegg, Paul Boreham, Geoff Dow, 2014-11-06 This study first published in 1986 provides a systematic account of the processes and structure of class formation in the major advanced capitalist societies. The focus is on the organizational mechanisms of class cohesion and division, theoretically deriving from a neo-Marxian perspective. Chapters consider the organization and structure of the corporate ruling class, the middle class and the working class and are brought together in an overarching analysis of the organization of class in relation to the state and the economy. This title will be of particular interest to students researching the impact of recession on societal structure and the processes of political class struggle as well as those with a more general interest in the socio-economic theories of Marx, Engels and Weber. **A**

**Critical Pedagogy for Native American Education Policy** Lavonna L. Lovern, F.E. Knowles, 2015-10-14 A Critical Pedagogy for Native American Education Policy is an application of critical pedagogical theory to historical and recent Native American educational policy. Focusing primarily on the Mvskoke Creek, the authors provide a detailed historic timeline that is tied to the functionalist view of sociology as it is reflected in the institution of education in general. Knowles and Lovern examine the policy from the critical perspective with the application of Habermas and Freire. They argue that the functionalist mode of education has furthered the cause of colonization and its attendant cultural destruction. The emancipatory possibilities presented by the work of Habermas and Freire are mined for their application to the deficits created by the historical and continued colonization of Native Americans. **Education** James Walker BenÃ©t, Arlene Kaplan Daniels, Current discussions of education from Jencks' Inequality to Coleman's recent controversial pronouncements on desegregation orders and white flight concentrate on the efficacy of educational reform. The articles in this anthology

collected from two issues of the journal Social Problems all consider this topic The volume is divided into six sections each exploring different aspects of education In an introductory essay the editors state the theme of the work and outline the approaches and focuses of the individual essays Daniels and Benet provide a framework within which the reader can digest and interpret the various contributions and raise a series of questions intended to guide future educational research They maintain that only interdisciplinary study can enable researchers to understand the play between individual aspirations and interconnecting social systems and institutions in the development of the growing exasperation with or indifference to the schooling question Originally sponsored by the Society for the Study of Social Problems this work provides refreshing insights into the nature of contemporary education and explores new areas of research not previously discussed It follows a social system approach to education and advocates it as a model for future researchers Serves an important role in the current assessment of American education Ray C Rist Cornell University Private Philanthropy and Public Education Robert J. Taggart, 1988 An account of Delaware's experience of educational modernization led by Pierre S du Pont from a local based collection of school districts to a coherent state system that by the 1930s ranked near the top in the nation

**Dilemmas of Schooling (RLE Edu L)** Ann Berlak, Harold Berlak, 2012-04-27 This study illuminates how the everyday activity of teachers raises profound economic cultural ethical political and research issues and provides a new and fruitful way of examining the practice of teaching The first part of the book offers a detailed description of sensitively recorded school situations arising from work carried out in a number of British primary schools From the analysis of their research the authors constructed a theoretical perspective for looking at schooling in the form of sixteen dilemmas the second half of the book is concerned with this perspective and shows how the dilemmas constitute a language for looking at everyday schooling and relating it to more general political social and cultural issues The book thus spans the gap in educational thinking between work with a firm empirical base and specifically theoretical studies Schooling in a Corporate Society. The Political Economic of Education in America Martin Carnoy, 1975 *Foundations of Lifelong Education* R. H.

Dave, 2014-05-18 *Foundations of Lifelong Education* deals with the interdisciplinary foundations of lifelong education and examines a number of basic issues concerning lifelong education such as why education should be treated as a lifelong process or how the functions of lifelong education are related to historical and contemporary developments in society The goals contents and processes of learning appropriate to the aspirations of lifelong education are also explored as well as the extent to which lifelong education is feasible and practicable in different socio economic and ideological conditions Comprised of eight chapters this book begins with an overview of methodological considerations in the present study such as the nature of the foundations content general steps that may be followed for constructing discipline based foundations and the ways of incorporating several elements of interdisciplinarity into the study The reader is then introduced to the sociological and philosophical aspects of lifelong education along with the historical background on the concept of lifelong

education In addition to sociology and philosophy lifelong education in relation to anthropology ecology psychology and economics is also analyzed The book concludes by presenting illustrative analyses and syntheses of the ideas discussed in the preceding chapters based on selected disciplines This monograph is intended for educators social reformers and educational policymakers Routledge Library Editions: Education Mini-Set L Sociology of Education Various,2021-06-23 Mini set L Sociology of Education re issues 48 volumes originally published between 1928 and 1990 The books in this mini set discuss Teaching and social change research processes in education class race culture and education marxist perspectives in the sociology of education the family and education the sociology of the classroom and school organization Sociocultural Research on Mathematics Education Bill Atweh,Helen Forgasz,Ben Nebres,2013-03-07 This volume the first to bring together research on sociocultural aspects of mathematics education presents contemporary and international perspectives on social justice and equity issues that impact mathematics education In particular it highlights the importance of three interacting and powerful factors gender social and cultural dimensions Sociocultural Research on Mathematics Education An International Perspective is distinguished in several ways It is research based Chapters report on significant research projects present a comprehensive and critical summary of the research findings and offer a critical discussion of research methods and theoretical perspectives undertaken in the area It is future oriented presenting recommendations for practice and policy and identifying areas for further research It deals with all aspects of formal and informal mathematics education and applications and all levels of formal schooling As the context of mathematics education rapidly changes with an increased demand for mathematically literate citizenship an increased awareness of issues of equity inclusivity and accountability and increased efforts for globalization of curriculum development and research questions are being raised more than ever before about the problems of teaching and learning mathematics from a non cognitive science perspective This book contributes significantly to addressing such issues and answering such questions It is especially relevant for researchers graduate students and policymakers in the field of mathematics education **Emerging Conversations on Theofiliation** Kenneth Ameke,Samuel Uzoukwu,2019-10-10 It is in honour of the silver jubilee of Most Rev Anthony J V Obinna s episcopacy that this book is put together in this first volume titled Emerging Conversations on Theofiliation Essays in Honour of Archbishop Anthony J V Obinna This volume discusses and enlarges insights inherent in Archbishop Obinna s theological thinking on theofiliation Therefore the contributors to this volume critically examine his idea of theofiliation from their areas of speciality as a further exploration of this theological term The willingness of the contributors has resulted in a collection that envisage the eclectic and heterogeneous scholarly vision of its honouree Besides the contributors to this maiden edition encompass both illustrious theologians and promising researchers in theology philosophy psychology and management The themes discussed by the contributors are grouped into biblical comparative study systematic pastoral ethical management philosophical political and anthropological issues The enriching and diverse collections of this volume
