Schoolmasters Of The Tenth Century:

Schoolmasters of the Tenth Century Cora Elizabeth Lutz,1977 **Politics and History in the Tenth Century** Jason Glenn,2004-10-14 This book stands at the intersection of recent work in historiography and the study of political culture in the early Middle Ages It takes the autograph manuscript of a tenth century monk Richer as a point of entry into the author's world and asks how he and his contemporaries in the religious and intellectual community of Reims engaged in Frankish politics By shifting focus from the events and actors that typically occupy centre stage in political theatre to the writing of history and its authors it offers a sustained reflection on the relationship between politics and history As a case study it aims ultimately to articulate new possibilities for the study of early medieval politics and at the same time to provide a model for a type of historical inquiry in which the development of questions and the exploration of possibilities stand more prominent than the conclusions drawn from them **Innovative Pedagogy of the Tenth Century** Richard Charles Schultz,2000
