Protecting American Interests Abroad United States. Congress. House. Committee on Government Reform. Subcommittee on National Security, Veterans Affairs, and International Relations, 2001 **Foreign Operations, Export Financing, and Related Programs Appropriations for 2006** United States. Congress. House. Committee on Appropriations. Subcommittee on Foreign Operations, Export Financing, and Related Programs, 2005 *Local Interests and American Foreign Policy* Karl Sandstrom, 2013-07-18 This book provides an alternative perspective on how social interest groups form and interact to affect interventions It combines historic sociological and international relations perspectives in a framework through which to view the relevant socio political dynamics in target societies At a time when American foreign policy seeks to redefine its objectives and its methods of intervention the monolithic ideological assumptions of the state as the panacea to all social ailments both as a format and a vehicle of norm delivery seemingly dooms American foreign policy and European allies to the repetition of old mistakes In environments where interests and priorities are shaped on a highly localised basis interventionist agendas often lack relevant meaning The book focuses in particular on the contrast between the assumptions inherent in Western interventionist strategies and social interest formation in Afghanistan Somaliland and Somalia Based on extensive fieldwork the book draws on available literature and on interviews with local population or international aid and development workers The conclusion is that in the cases examined the agency of local interest groups largely controls the outcome of external strategies This book will be of great interest to students and scholars of US Foreign Policy International Relations and Security Studies **Foreign Operations, Export Financing, and Related Programs Appropriations for Fiscal Year 2001** United States. Horwitz, 2013-07-10 Conservatism has been the most important political doctrine in the United States for nearly four decades It has dominated the intellectual debate and largely

set the policy agenda even during years of Democratic electoral control But 21st century conservatism has moved far beyond even the Reagan Revolution of small government lower taxes and a respect for tradition The alliance of libertarians neoconservatives and the Christian right has launched anxious and angry attacks on the purported homosexual agenda the hoax of climate change the rule by experts and elites and the banishment of religion from the public realm In the foreign policy arena it has tried to remake the world through the cleansing fire of violence Contemporary American conservatism practices a politics that is disciplined uncompromising utopian and enraged seeking to take back our country This is anti establishment conservatism whose origin can be traced back to the right wing that battled both the reigning post World War II liberal consensus and the moderate establishment Republican Party This book examines the nature of anti establishment conservatism traces its development from the 1950s to the Tea Party and explains its political ascendancy

Werner, 2019-02-28 Foreign exchange intervention is widely used as a policy tool particularly in emerging markets but many facets of this tool remain limited especially in the context of flexible exchange rate regimes The Latin American experience can be informative because some of its largest countries adopted floating exchange rate regimes and inflation targeting while continuing to intervene in foreign exchange markets This edited volume reviews detailed accounts from several Latin American countries central banks and it provides insight into how and with what aim many interventions were decided and implemented This book documents the effectiveness of intervention and pays special attention to the role of foreign exchange intervention policy within inflation targeting monetary frameworks The main lesson from Latin America s foreign exchange interventions in the context of inflation targeting is that the region has had a considerable degree of success Transparency and a clear communication policy have been key For economies that are not highly dollarized rules based intervention helped contain financial instability and build international reserves while preserving inflation targets The Latin American experience can help other countries in the design and implementation of their policies
