Gunton, 1997-06-19 What is Christian doctrine The fourteen specially commissioned essays in this book serve to give an answer to many aspects of that question Written by leading theologians from America and Britain the essays place doctrine in its setting what it has been historically and how it relates to other forms of culture and outline central features of its content They attempt to answer questions such as what has and does Christian doctrine teach about God the creation the human condition and human behaviour and what is the part played in Christian doctrine by the Trinity Jesus Christ and the Holy Spirit New readers will find this an accessible and stimulating introduction to the main themes of Christian doctrine while advanced students will find a useful summary of recent developments which demonstrates the variety coherence and intellectual vitality of contemporary Christian thought Theosis in the Theology of Thomas Torrance Myk Habets, 2016-02-17 Torrance s vision of Theosis deification divinisation is explored through his doctrine of creation and anthropology his characterisation of the incarnation his accounts of reconciliation and union with Christ and his theology of church and sacraments Myk Habets study distinguishes Torrance s Reformed vision of theosis from other possible accounts of salvation as divinisation as they are found for instance within patristic thought and Eastern Orthodoxy This book presents the first critique of the theology of T F Torrance to focus on theosis and examines a model of theosis within the realm of reformed theology built upon Western theology **Greek Literature in Late Antiquity** Scott Fitzgerald Johnson, 2016-04-22 Late Antiquity has attracted a significant amount of attention in recent years As a historical period it has thus far been defined by the transformation of Roman institutions the emergence of distinct religious cultures Jewish Christian Islamic and the transmission of ancient knowledge to medieval and early modern Europe Despite all this the study of late antique literary culture is still in its infancy especially for the Greek and other eastern texts examined in this volume The contributions here presented make new inroads into a rich literature notable above all for its flexibility and unparalleled creativity in combining multiple languages and literary traditions The authors and texts discussed include Philostratus Eusebius of Caesarea Nonnos of Panopolis the important St Polyeuktos epigram and numerous others The volume makes use of a variety of interdisciplinary approaches in an attempt to provoke discussion on change Dynamism literary education Didacticism and reception studies Classicism The result is a study which highlights the erudition and literary sophistication characteristic of the period and brings questions of contextualization linguistic association and artistic imagination to bear on little known or undervalued texts without neglecting important evidence from material culture and social practices With

The Unified Operations of the Human Soul Jeffrey C. Waddington, 2015-07-24 This book endeavors to examine and critically assess the theological anthropology of Jonathan Edwards with a view to considering how this anthropology coheres with his apologetic methodology Specifically the question has been raised whether Edwards doctrine of man is consistent with the picture painted of Jonathan Edwards by John Gerstner that he was the epitome of the classical apologist It is argued that Edwards practiced an eclectic apologetic sans apologetic self awareness In other words Edwards was a child of his training and time

Clement and Scriptural Exegesis H. Clifton Ward, 2022 In a new treatment of the theological exegesis of Clement of Alexandria this study suggests that an assessment of the reading practices that Clement employs from the grammatical and the memorial archives reveals his deep commitment to scriptural interpretation as the foundation of a theological imagination

The Oxford Handbook of the Bible in America Paul Gutjahr, 2017-11-01 Early Americans have long been considered A People of the Book Because the nickname was coined primarily to invoke close associations between Americans and the Bible it is easy to overlook the central fact that it was a book not a geographic location a monarch or even a shared language that has served as a cornerstone in countless investigations into the formation and fragmentation of early American culture Few books can lay claim to such powers of civilization altering influence Among those which can are sacred books and for Americans principal among such books stands the Bible This Handbook is designed to address a noticeable void in resources focused on analyzing the Bible in America in various historical moments and in relationship to specific institutions and cultural expressions It takes seriously the fact that the Bible is both a physical object that has exercised considerable totemic power as well as a text with a powerful intellectual design that has inspired everything from national religious and educational practices to a wide spectrum of artistic endeavors to our nation s politics and foreign policy This Handbook brings together a number of established scholars as well as younger scholars on the rise to provide a scholarly overview rich with bibliographic resources to those interested in the Bible s role in American cultural formation

The Politics of Piety Megan C. Armstrong, 2004 The Politics of Piety situates the Franciscan order at the heart of the religious and political conflicts of the late sixteenth century to show how a medieval charismatic religious tradition became an engine of political change The friars used their redoubtable skills as preachers intellectual training at the University of Paris and personal and professional connections with other Catholic reformers and patrons to successfully galvanize popular opposition to the spread of Protestantism throughout the sixteenth century By 1588 the friars used these same strategies on behalf of the Catholic League to prevent the succession of the Protestant heir presumptive Henry of Navarre to the French throne This book contributes to our understanding of religion as a formative political impulse throughout the sixteenth century by linking the long term political activism of the friars to the emergence of the French

monarchy of the seventeenth century Megan C Armstrong is assistant professor of early modern Europe in the History Department of the University of Utah

Being and Building up the Church in My Father's Home Alozie Oliver Onwubiko, 2020-05-29 The rehabilitation by St Pope Paul VI of African traditional religions and cultures has made them more objective for philosophical theological and anthropological investigation and reflection And the investigating and reflecting subject is a native African himself The repatriation of missiology into ecclesiology in the Catholic Church towards the end of the 20th Century was a new development and the result of it is what we have before us in this book Here personal native anthropological philosophical and theological studies and experience have combined with in depth reading of some African novelists necessarily Afrocentric distillation of African culture has nourished thinking and reflection at a new level in terms of ecclesial implications of living Christianity authentically and of being and building the Church in my father's home beyond deference as defect

Reflecting on Faith Schools Helen Johnson, 2013-09-13 Profound changes in society government policy and the political landscape as well as cataclysmic events such as 9 11 have greatly altered perceptions of faith schools and their existence now causes more controversy than ever Taking a reflective practice approach this study by people working within faith schools and colleges explores the new hot issues surrounding the subject in a sophisticated way Looking at the supposed secularisation of the West the nature of the multi cultural and multi faith society the role of women the spiritual development of children and most of all the form that the tolerance of religious diversity should take in liberal societies this book encourages readers to re examine their assumptions and to consider faith schools as a part of the future of the English schooling system within a multi cultural society This book was previously published as a special issue of The International Journal of Children's Spirituality

Sanctify them in the Truth Stanley Hauerwas, 2016-01-28 In Sanctify them in the Truth Stanley Hauerwas provides an overview of the development of theology and ethics He considers how the two disciplines interrelate discusses the nature of sin how any account of sin requires a more determinative account of moral law the nature of sanctification the body as a subject for Christian holiness and the relationship between sanctification and truthfulness The volume ends with sermons Hauerwas emphasizes the freedom the sermons create as they remind us that the words we use are not our words The inclusion of sermons also underlines Hauerwas point that the truth of the gospel cannot be discovered apart from its embodiment in specific communities of faith The Christian life he argues is not about being in possession of the truth defined as a set of timeless and universal principles of belief and action Rather it is about learning and living the life of truthfulness toward God and one another For this Cornerstones edition Hauerwas has provided a new preface that places the work in the present debate and brings this remarkable work to a new audience

Perspectives on Ecclesiology and Ethnography Pete Ward,2012-03-15 Within the disciplines of religious studies systematic theology and practical theology there exists a divide between empirical and theological analyses of the church Each volume in the cross disciplinary series Studies in Ecclesiology and Ethnography attempts to address this gap by exploring the methodological and substantive issues that arise from both theological and empirical studies of the church s practices and social reality Perspectives on Ecclesiology and Ethnography the inaugural volume in the series proposes that if theology is to regain its relevance to the church today theologians must utilize ethnographical tools in order to provide more accurate disciplined research that is situated in real contexts Using ethnography in its broadest sense encompassing any form of qualitative research this volume proposes that the church is both theological and social cultural which implies the need for a methodological shift for researchers in theology Contributions from twelve scholar practitioners lead the way forward Contributors Luke Bretherton Paul S Fiddes Nicholas M Healy Mary McClintock Fulkerson Alister E McGrath Richard R Osmer Elizabeth Phillips Christian Scharen John Swinton Pete Ward Clare Watkins John Webster **Eurasian Philosophy and Quantum Metaphysics** Juan Valdez,2019-01-15 Eurasian Philosophy and Quantum Metaphysics Theology Reconsidered By Juan Valdez The science of our modern age is able to neither address nor solve our current global problems Author Juan Valdez believes we should study humanity s ancient wisdom and philosophy texts to develop a new intellectual paradigm that can respond and support our current needs Eurasian Philosophy and Quantum Metaphysics Theology Reconsidered is an in depth study of the origins and meanings of ancient philosophies before they were fractured into mythology and religions and attacked by modern science Beginning with creation mythology in Eurasia through the development of philosophical thought to the Scientific Revolution to our own modern Quantum Era the progression and abandonment of ancient wisdom is carefully studied Valdez reviews and analyzes the ancient texts themselves to understand what they truly say and not what later historians have said about them The Indo Aryan Vedas the Torah Rene Descartes Discourse on the Method and Principles of Philosophy Neils Bohr s Atomic Theory and more are all respectfully and critically assessed As enlightened as we may consider ourselves Valdez calls attention to how limited modern thought has become By reviewing past wisdom we can not only rediscover the roots of modern thought but place Wisdom itself at the top of intellectual pursuits Eurasian Philosophy and Quantum Metaphysics Theology Reconsidered is a rich and nuanced study on how humanity has thought of itself Christian Identity E. M. Conradie,2005-07-01 This book is rooted in the quest for Christian identity in the Southern African context where Christianity is faced with many stark challenges internal tensions and experiences of rapid social change The book explores six aspects of the highly complex notion of Christian identity namely Christian institutions a Christian ethos Christian rituals Christian experiences with specific reference to the notion of faith Christian narratives with specific reference to the category of revelation and the place of the Bible in the Christian

Philo of Alexandria and the Construction of Jewishness in Early Christian

Writings Jennifer Otto, 2018-04-27 Philo of Alexandria and the Construction of Jewishness in Early Christian Writings investigates portrayals of the first century philosopher and exegete Philo of Alexandria in the writings of Clement of Alexandria Origen and Eusebius It argues that early Christian invocations of Philo are best understood not as attempts simply to claim an illustrious Jew for the Christian fold but as examples of ongoing efforts to define the continuities and distinctive features of Christian beliefs and practices in relation to those of the Jews This study takes as its starting point the curious fact that none of the first three Christians to mention Philo refer to him unambiguously as a Jew Clement the first in the Christian tradition to openly cite Philo's works refers to him twice as a Pythagorean Origen who mentions Philo by name only three times makes far more frequent reference to him in the guise of an anonymous one who came before us Eusebius who invokes Philo on many more occasions than does Clement or Origen most often refers to Philo as a Hebrew These epithets construct Philo as an alternative near other to both Christians and Jews through whom ideas and practices may be imported to the former from the latter all the while establishing boundaries between the Christian and Jewish ways of life The portraits of Philo offered by each author reveal ongoing processes of difference making and difference effacing that constituted not only the construction of the Jewish other but also the Christian self

Theological Education in Contemporary Africa

Grant LeMarquand, Joseph D. Galgalo, 2004 Part One addresses Theological Foundations The five essays in this section deal with the Bible Theology and Ecumenism The subjects of theological methods contextual hermeneutics and appropriate curriculum are given special attention Of course even foundational issues cannot be discussed in a vacuum and so each of the essays addresses these foundational subjects in the light of African realities Part Two deals with Contemporary Issues It is particularly in this section that the traditional themes in African theology have been somewhat displaced by concerns which are today very pressing indeed Three essays are devoted to the question of HIV AIDS This disease which has devastated the African continent demands a theological and practical response from those who claim to follow Jesus Christ If the churches do not respond to this crisis with energy and determination we should not be surprised if the next generation wonders whether the Gospel has the power which we claim that it has Two essays address the question of Islam and Muslim Christian Relations in Africa The resurgence of Islam in the world today is a concern of many For those who believe in Jesus this is a challenge which demands much wisdom and love How should we respond to our Muslim neighbours What are appropriate and thoughtful ways to share the love of Christ Two further essays appear under the title of The Marginalized This could of course be a much larger section Those who suffer from AIDS could be included in this number and one might have expected to see at least one essay on the place of women In this volume however the disabled and youth are highlighted Both groups are clearly in need of the attention of the churches and both groups are clearly misunderstood and neglected The final section of Part Two contains essays which focus attention on Theological Paedagogy All of the other contributions to this volume make

suggestions and arguments about curriculum resources and issues of concern for theological educators The causal aim of this book is that these essays may help us to reflect in an intentional way on the implications of contemporary realities for the future of theological education **The Trinitarian Faith** Thomas F. Torrance, 2016-03-24 Cutting across the divide between East and West and between Catholic and Evangelical Thomas F Torrance illuminates our understanding of the doctrine of the Holy Trinity Torrance combines here the Gospel and a theology shaped by Karl Barth and the Church Fathers and offers his readers a unique synthesis of the Nicene Creed This volume remains a tremendously helpful resource on the doctrine of the Trinity and the Nicene Creed The new introduction for this Cornerstones edition is written by Myk Habets the leading Thomas F Torrance scholar today
