**Education and the Social Construction of 'Race' (RLE Edu J)** Peter

Figueroa,2012-06-14 Does the education system help or hinder the fight against racism This volume provides a constructive critique of the Swan Report of 1985 and of sociological research into racial and ethnic relations The author undertakes a searching philosophical and sociological analysis of multicultural and antiracist education He shows how the education system itself can reinforce racist assumptions and behaviour in society but also argues that through educational and social reconstructing it can promote constructive cross cultural relations      **International Yearbook of History Education A.**

Dickinson,P. Gordon,P. Lee,J. Slater,2013-11-19 This international academic and professional yearbook contains articles and reviews on matters of interest to all concerned with history in education from contributors throughout the world The yearbook will encourage rigorous exploration or philosophical psychological sociological and historical perspectives upon history in education and their relation to practice where appropriate The theme of the first edition is centralisation and decentralisation of national curricula      **Schools council history 13 - 16 project** Schools Council History 13 - 16 Project,1979      The Victorians Since 1901 Miles Taylor,Michael Wolff,2004-09-04 Over a century after the death of Queen Victoria historians are busy re appraising her age and achievements However our understanding of the Victorian era is itself a part of history shaped by changing political cultural and intellectual fashions Bringing together a group of international scholars from the disciplines of history English literature art history and cultural studies this book identifies and assesses the principal influences on twentieth century attitudes towards the Victorians Developments in academia popular culture public history and the internet are covered in this important and stimulating collection and the final chapters anticipate future global trends in interpretations of the Victorian era making an essential volume for students of Victorian Studies      *British Children's Literature and the First World War* David Budgen,2018-05-17 Perceptions of the Great War have changed significantly since its outbreak and children s authors have continually attempted to engage with those changes explaining and interpreting the events of 1914 18 for young readers *British Children s Literature and the First World War* examines the role novels textbooks and story papers have played in shaping and reflecting understandings of the conflict throughout the 20th century David Budgen focuses on representations of the conflict since its onset in 1914 ending with the centenary commemorations of 2014 From the works of Percy F Westerman and Angela Brazil to more recent tales by Michael Morpurgo and Pat Mills Budgen traces developments of understanding and raises important questions about the presentation of history to the young He considers such issues as the motivations of children s authors and whether modern children s books about the past are necessarily more accurate than those written by their forebears Why for example do modern writers tend to ignore the global aspects of the First World War Did detailed narratives of battles written during the war really convey the truth of the conflict Most importantly he considers whether works aimed at children can ever achieve anything more than a partial and skewed response to such complex and tumultuous events      **Historical Controversies and Historians** William Lamont,2005-06-20 For students new to the subject of history there are many books on the theory of writing history but

fewer on how history is actually practised This work by a team of historians from the University of Sussex fills this gap The first half of the book examines a number of notable controversies that have been and still are the subject of historical debate for example race in South Africa the legacy of the French Resistance the origins of the Welfare State These illustrate the issues involved in doing history The second half of the book focuses upon the historians themselves such as Tawney Carr Buckhardt Weber Thompson and demonstrates how the historian puts his her own spin on historical interpretation Together the study of controversies and historians shows with clarity the practical issues of historical method Historical Controversies and Historians should be a useful primer for any student embarking on a course in history

**Remembering the First World War** Bart Ziino, 2014-12-05 Remembering the First World War brings together a group of international scholars to understand how and why the past quarter of a century has witnessed such an extraordinary increase in global popular and academic interest in the First World War both as an event and in the ways it is remembered The book discusses this phenomenon across three key areas The first section looks at family history genealogy and the First World War seeking to understand the power of family history in shaping and reshaping remembrance of the War at the smallest levels as well as popular media and the continuing role of the state and its agencies The second part discusses practices of remembering and the more public forms of representation and negotiation through film literature museums monuments and heritage sites focusing on agency in representing and remembering war The third section covers the return of the War and the increasing determination among individuals to acknowledge and participate in public rituals of remembrance with their own contemporary politics What for instance does it mean to wear a poppy on armistice remembrance day How do symbols like this operate today These chapters will investigate these aspects through a series of case studies Placing remembrance of the First World War in its longer historical and broader transnational context and including illustrations and an afterword by Professor David Reynolds this is the ideal book for all those interested in the history of the Great War and its aftermath
