## Schubert A Symposium:

Schubert ,1946      Schubert Gerald Abraham,1952      *Schubert's Fingerprints: Studies in the Instrumental Works*  
Susan Wollenberg,2016-04-01 As Robert Schumann put it Only few works are as clearly stamped with their author s imprint  
as his This book explores Schubert s stylistic traits in a series of chapters each discussing an individual fingerprint with case  
studies drawn principally from the piano and chamber music The notion of Schubert s compositional fingerprints has not  
previously formed the subject of a book length study The features of his personal style considered here include musical  
manifestations of Schubert s violent nature the characteristics of his thematic material and the signs of his classicizing  
manner In the process of the discussion attention is given to matters of form texture harmony and gesture in a range of  
works with regard to the various fingerprints identified in each chapter The repertoire discussed includes the late string  
quartets the String Quintet the E flat Piano Trio and the last three piano sonatas Developing ideas which she first proposed in  
a series of journal articles and contributions to symposia on Schubert Professor Wollenberg takes into account recent  
literature by other scholars and draws together her own researches to present her view of Schubert s compositional  
personality Schubert emerges as someone exerting intellectual control over his musical material and imbuing it with poetic  
resonance      **Symposium on Lexicography V** Karl Hyldgaard-Jensen,Arne Zettersten,1990, København> Symposium on
