Returning Cycles Charles Fisk, 2001 This compelling investigation of the later music of Franz Schubert explores the rich terrain of Schubert s impromptus and last piano sonatas Drawing on the relationships between these pieces and Schubert s Winterreise song cycle his earlier *Der Wanderer* the closely related *Unfinished Symphony* and his story of exile and homecoming *My Dream* Charles Fisk explains how Schubert s view of his own life may well have shaped his music in the years shortly before his death Fisk s intimate portrayal of Schubert is based on evidence from the composer s own hand both verbal song texts and his written words and musical vocal and instrumental Noting extraordinary aspects of tonality structure and gestural content Fisk argues that through his music Schubert sought to alleviate his apparent sense of exile and his anticipation of early death Fisk supports this view through close analyses of the cyclic connections within and between the works he explores finding in them complex musical narratives that attempt to come to terms with mortality alienation hope and desire Fisk s knowledge of Schubert s life and music together with his astute and imaginative attention

to musical detail helps him achieve one of the most difficult goals in music criticism to capture and verbalize the human content of instrumental music British Catalogue of Music, 1957-1985 Michael D. Chapman, Elizabeth Robinson, 1988

The Etude Music Magazine ,1926 **Music in Willa Cather's Fiction** Richard Giannone, 2001-01-01 Music is everywhere in Willa Cather's fiction as a subject in the background slyly commenting on the action connecting characters to a distant world or revealing their interior worlds Not merely incidental or ornamental though music is intrinsic to Cather's work a distinctive quality of her creation and expression and it is in this light that Richard Giannone considers Cather's art Music in Willa Cather's Fiction is the definitive study of its subject The first work to examine the complex thematic and structural forms that music acquires in Cather's narratives Giannone's book uses this musical approach as a way of seeing into the author's artistic sensibility the evolution of her art and her total achievement Progressing chronologically Giannone shows how Cather's view and use of music changed over time From what her early journalistic pieces on music and musicians reveal about her attitude and anticipate in her later work Giannone moves to Cather's early stories to identify the trend of some of her artistic choices the direction of her stylistic development and the complication of her moral interest as these are manifested in musical references In her novels and later stories he emphasizes the contribution of music to the individual work as well as the allusions and connections that sound throughout her oeuvre **Catalogs** Harold Reeves (Firm), 1926 **Washington International Arts Letter** ,1974
