Art and Architecture Division, 1975     **Catalog of the Avery Memorial Architectural Library of Columbia University: Rodg - Sculpture I** Avery Library, 1968     Symbols Raymond Firth, 2011 This book first published in 1973 offers a broad survey of the study of symbolic ideas and behaviour The study of symbolism is popular nowadays and anthropologists have made substantial contributions to it Raymond Firth has long been internationally known for his field research in the Solomons and Malaysia and for his theoretical work on kinship economics and religion Here from a new angle he has produced a broad survey of the study of symbolic ideas and behaviour Professor Firth examines definitions of symbol He traces the history of scientific inquiry into the symbolism of religious cults

mythology and dreams back into the eighteenth century He compares some modern approaches to symbolism in art literature and philosophy with those in social anthropology He then cites examples in anthropological treatment of symbolic material from cultures of varying sophistication Finally he offers dispassionate analyses of symbols used in contemporary Western situations from hair styles to the use and abuse of national flags from cults of Black Jesus to the Eucharistic rite In all this Professor Firth combines social and political topicality with a scholarly and provocative theoretical inquiry **Image as Insight** Margaret R.
