Fiddes,1987 Christian Science: the Gospel of the Kingdom Clifford Pabody Smith,1913 *Science and the Gospel* Peter Floriani,2017-05 Science and the Gospel The Gospel and Science It would be hard to think of a more provoking title yet every Sunday we say Through Christ all things were made In this book you will learn about the mustard seed and how it grows smartphone chargers and St John the Baptist a secret about digestion and the Last Judgement celibate cells poor cells defender cells that sacrifice their lives how the ABCs and sugar are like our hands the crustacean associated with the Passion the link between the Great Commission mathematics recursion and the ribosome strange things about gold silver iron subatomic particles gravity the sun stars humility authority observation death danger work and much more Over 100 terms help demonstrate that in Christ are hidden all the treasures of wisdom and knowledge **Christian Science, the Gospel of Freedom** Willis F. A lecture, etc Charles PERRY (Bishop of Melbourne.),1870 **Where Science Meets God** Scott R. Frazer,2018 How can a scientist believe in religion It s simple The two are not mutually exclusive In fact when we examine the scientific principles behind scripture stories and gospel teachings we can actually enhance and strengthen our religious beliefs Join scientist and scholar Scott Frazer in this compelling exploration of how modern scientific findings align with eternal Latter day Saints principles Christian Science and the Gospel of Jesus Christ Rev. George Francis Greene,1902 *Bible Versus Science* Tiebet Joshua,2015-08-21 The Bible is generally believed to be the very word of God that is words that were spoken by God at different ages through different people and mediums for the benefit of man For this reason its contents are taken to be sacred true and enduring forever Hence the thought of doing intensive academic works on the various positions of the Bible is hardly done This is perhaps to avoid questioning the words of God You either believe the Bible to be true or question it and be looked upon as an unbeliever On the other hand and unlike religion where one has to believe before seeing because God has said it even when you are not sure that it is God that had said it science is seeing before believing Science is a fact that has been tested and proven to be true with the ways and methods of carrying out the tests or experiments clearly written down for anyone who cares to try the process **Science, Creation and the Bible** Richard F. Carlson,Tremper Longman III,2010-09-07 Physicist Richard Carlson and biblical scholar Tremper Longman address the long standing problem of how to relate scientific description of the beginnings of the universe with the biblical creation passages found in Genesis Experts in their respective fields these two authors provide a way to resolve seeming conflicting descriptions *Social-Science Commentary on the Gospel of John* Bruce J. Malina,Richard L. Rohrbaugh, This work assembles and catalogs the values conflicts and mores of

Dembski, Michael R. Licona, 2010-07-01 There have always been challenges to belief in God as he is revealed in the Bible and each new year seems to add more questions to the doubter's arsenal In Evidence for God leading apologists provide compelling arguments that address the most pressing questions of the day about God science Jesus the Bible and more including Is Intelligent Design really a credible explanation of the origins of our world Did Jesus really exist Is Jesus really the only way to God What about those who have never heard the gospel Is the Bible today what was originally written What about recently publicized gospels that aren't in the Bible and much more     **Creation Stories in Dialogue: The Bible, Science, and Folk Traditions** Jan G. van der Watt, R. Alan Culpepper, 2015-11-02 This book is about creation stories in dialogue not only between different religious views but also between current day scientific perspectives International specialists like Alan Culpepper David Christian John Haught Randall Zachman Ellen van Wolde from various disciplines are reflecting on the interface between science and religion relating questions of creation and origin This multi disciplinary discussion by some of the leading exponents in this field makes the book unique not only in its depth of discussion but also in its wide ranging interdisciplinary discussion The point of departure of all the contributions is the prestige lecture by Alan Culpepper where he argues for bringing Biblical material into discussion with modern scientific insights relating to creation and origin     The Bible a Rule and Test of Religion and of Science. Bad Theology, Bad Science** K B Napier, *The Christian Science Journal*, 1917     **Social Science and the Christian Scriptures, Volume 2** Anthony J. Blasi, 2017-04-13 Sociologist Anthony Blasi analyzes early Christianity using multiple social scientific theories including those of Max Weber Georg Simmel Karl Marx Antonio Gramsci Max Scheler Alfred Schutz and contemporary theorists He investigates the canonical New Testament books as representative of early Christianity a sample based on usage and he takes the books in the chronological order in which they were written The result is a series of stills that depict the movement at different stages in its development His approaches often neglected in New Testament studies include such sociological subfields as sect theory the routinization of charisma conflict stratification theory stigma the sociology of knowledge new

religions the sociology of secrecy marginality liminality syncretism the social role of intellectuals the poor person as a type the sick role degradation ceremonies populism the sociology of migration the sociology of time mergers the sociology of law and the sociology of written communication Needing to treat the New Testament text as social data Blasi uses his background in biblical studies and a review of a vast literature to establish the chronology of the compositions of the New Testament books and to present the data in a new translation that is accessible to non specialists
