Isotopes for Medicine and the Life Sciences Institute of Medicine, Committee on Biomedical Isotopes, 1995-02-27  
Radioactive isotopes and enriched stable isotopes are used widely in medicine agriculture industry and science where their application allows us to perform many tasks more accurately more simply less expensively and more quickly than would otherwise be possible Indeed in many cases for example biological tracers there is no alternative In a stellar example of technology transfer that began before the term was popular the Department of Energy DOE and its predecessors has supported the development and application of isotopes and their transfer to the private sector The DOE is now at an important crossroads Isotope production has suffered as support for DOE s laboratories has declined In response to a DOE request this book is an intensive examination of isotope production and availability including the education and training of those who will be needed to sustain the flow of radioactive and stable materials from their sources to the laboratories and medical care facilities in which they are used Chapters include an examination of enriched stable isotopes reactor and accelerator produced radionuclides partnerships among industries national laboratories and universities and national isotope policy *Science & Medicine* Michael Cole, 1993 Science & Engineering Indicators , 1993 Reader's Guide to the History of Science Arne Hessenbruch, 2013-12-16 The Reader s Guide to the History of Science looks at the literature of science in some 550 entries on individuals Einstein institutions and disciplines Mathematics general themes Romantic Science and central concepts Paradigm and Fact The history of science is construed widely to include the history of medicine and technology as is reflected in the range of disciplines from which the international team of 200 contributors are drawn *Encyclopedia of Library and Information Science* Allen Kent, 1998-09-15 Adaptive Clustering of Hypermedia Documents to Using the World Wide Web at the Reference Desk *Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures* Helaine Selin, 2008-03-12 Here at last is the massively updated and augmented second edition of this landmark encyclopedia It contains approximately 1000 entries dealing in depth with the history of the scientific technological and medical accomplishments of cultures outside of the United States and Europe The entries consist of fully updated articles together with hundreds of entirely new topics This unique reference work includes intercultural articles on broad topics such as mathematics and astronomy as well as thoughtful philosophical articles on concepts and ideas related to the study of non Western Science such as rationality objectivity and method You ll also find material on religion and science East and West and magic and science 1993 Patt Leonard, Rebecca Routh, 1996 Journal articles books book chapters book reviews dissertations and selected government publications on East Central Europe and the former Soviet Union published in the United States and Canada ASSOCIATION OF RINGSIDE PHYSICIAN'S MANUAL OF COMBAT SPORTS MEDICINE GERARD P. VARLOTTA, D.O., FACSM., 2022-06-17 Bibliography of the History of Medicine , 1990 Literature and Medicine in Nineteenth-Century Britain Janis McLarren Caldwell, 2004-11-18 Although we have come to regard clinical and

romantic as oppositional terms romantic literature and clinical medicine were fed by the same cultural configurations In the pre Darwinian nineteenth century writers and doctors developed an interpretive method that negotiated between literary and scientific knowledge of the natural world Literary writers produced potent myths that juxtaposed the natural and the supernatural often disturbing the conventional dualist hierarchy of spirit over flesh Clinicians developed the two part history and physical examination weighing the patient s narrative against the evidence of the body Examining fiction by Mary Shelley Carlyle the Bront s and George Eliot alongside biomedical lectures textbooks and articles Janis McLarren Caldwell demonstrates the similar ways of reading employed by nineteenth century doctors and imaginative writers and reveals the complexities and creative exchanges of the relationship between literature and medicine

**Instrumentation Between Science, State and Industry** B. Joerges,T. Shinn,2012-12-06 these In this book we appropriate their conception of research technology and extend it to many other phenomena which are less stable and less localized in time and space than the Zeeman Cotton situation In the following pages we use the concept for instances where research activities are orientated primarily toward technologies which facilitate both the production of scientific knowledge and the production of other goods In particular we use the term for instances where instruments and methods traverse numerous geographic and institutional boundaries that is fields distinctly different and distant from the instruments and methods initial focus We suggest that instruments such as the ultra centrifuge and the trajectories of the men who devise such artefacts diverge in an interesting way from other forms of artefacts and careers in science metrology and engineering with which students of science and technology are more familiar The instrument systems developed by research technologists strike us as especially general open ended and flexible When tailored effectively research technology instruments potentially fit into many niches and serve a host of unrelated applications Their multi functional character distinguishes them from many other devices which are designed to address specific narrowly defined problems in a circumscribed arena in and outside of science Research technology activities link universities industry public and private research or metrology establishments instrument making firms consulting companies the military and metrological agencies Research technology practitioners do not follow the career path of the traditional academic or engineering professional
