Catalog, 1926** Isabella Mitchell Cooper, Marion Horton, 1926 Books of 1912- , 1922 **Sir William Osler, bart** , 1920 **Sir William Osler, Bart** Minnie Wright Blogg, 1920 Initiation Science Rudolf Steiner, 2016-11-14 In an astonishing series of lectures on the science of spiritual knowledge Rudolf Steiner begins by addressing an audience in Dornach Switzerland where only months earlier his architectural masterpiece the first Goetheanum had been destroyed by fire He discusses the nature of our planetary system revealing the planets that are characterised by freedom and those that determine destiny The spirits of the moon live in seclusion preserving original wisdom and reflecting powers connected to sexuality whereas the sun creates harmony Jupiter is the thinker whilst the spirits on Saturn act as living memory Speaking in London Steiner states that the things that happen to people in sleep are more important than anything that occurs during waking hours Human beings he says must learn to see themselves as an image of spirits and spiritual activities on earth In a break from the theme and returning to Dornach Rudolf Steiner reports on his recent visit to England and Wales where he attended an educational conference in Ilkley a Summer School in Penmaenmawr and a school for the disadvantaged in the East End of London Steiner speaks of the particular atmosphere he experienced in West Yorkshire and North Wales where remnants of Druid spirituality live in the surroundings The latter theme emerges strongly in the next lectures which examine the Druid priest s sun initiation and perception of moon spirits The Druids investigated the secrets of the universe influencing both social and religious life Steiner also describes the mythic being of Woden who signified the birth of intellectuality and the subsequent fear of death which he asserts can be healed by the Mystery of Golgotha In the final section Rudolf Steiner discusses The past present and future development of the human mind Again he references the importance of Druid culture noting that the ground plans of the stone circles in Penmaenmawr are similar to that of the first Goetheanum He also points to the crucial roles of the ancient Mysteries and Christ s deed in human development *The Christ Impulse* Rudolf Steiner, 2014-12-15 Rudolf Steiner s teachings of Christ are unique Christ he says is an objective universal force existing independently of Christian churches and confessions and working for the whole of humanity The impulse that Christ brought to earth acts for the advancement of all people irrespective of religion

creed or race Among the myriad other themes that emerge here are the introduction of the I or self in human development and its connection to Christ and the meaning of the Ten **Unifying Humanity Spiritually** Rudolf Steiner, 2014 The central motif in these lectures relates to the appearance of Christ on earth knowledge of his historical incarnation as well as Christ's manifestation in the present and future periods of human development Rudolf Steiner creates an arc from the pre-Christian mysteries through Gnosticism and the older studies of the early Church Fathers to Scholasticism and neo-Scholasticism After ancient faculties of clairvoyance had begun to fade he explains human beings could no longer see beyond the world of outer appearances and direct perceptions of Christ were therefore no longer possible And so the question arose as to how limitations on human knowledge could be overcome a question which remains pertinent in our time Steiner asserts that only a transformation of thinking enabling a living and conscious inner conceptual life can allow for a true understanding of the relationship between the earthly Jesus and the cosmic Christ Such living thinking leads in turn to direct experience

Spirit as Sculptor of the Human Organism Rudolf Steiner, 2014 Let us be courageous and not draw back in fear when realities of the world of spirit that play into human life are unveiled You see the future of humanity depends on us learning to live with the world of spirit in the same way that we live with the physical world here on earth Rudolf Steiner In a wide ranging series of lectures Rudolf Steiner demonstrates the integral nature of spirit and matter and their manifold connections Speaking to audiences in London Holland Germany and Switzerland Steiner explains how through a process of evolving consciousness humanity lost its knowledge and direct experience of the spiritual sources of existence but now needs to reconnect with them Spirit is the essence and power of life which in Steiner's vivid image strikes a match in our whole being when we allow it to inform us fully Our world cannot be understood only in physical terms but is inseparable from the divine realities continually creating and sustaining it Reconnecting with the spirit calls upon us to heal the fractures between everyday consciousness and the metaphysical realms in which we are already embedded In Steiner's descriptions there is no end to the numerous reconnections possible between our past present and future between the active individualizing principle of the I and the physical human body it works upon and shapes between our physical actions and limb movements in one life and the forming or sculpting of our head in a future one and above all between the moral actions and insights we develop whilst alive on earth and our developing eye for spiritual reality in the life after death with all that this can mean for the future of human evolution Taking a truly holistic approach Rudolf Steiner tackles an eclectic series of subjects throughout these sixteen lectures all united by the common theme of rediscovering how spirit pervades life Apart from a focus on education in several lectures he discusses experiences during sleep the human spirit and soul between death and a new birth how spirit sculpts the human organism Christ from the perspective of anthroposophy the battle for human nature between luciferic and ahrimanic beings karma and the creation of conditions for our return to a new life on earth human experience of the etheric cosmos and the human being's faculties of hearing speaking singing walking and thinking Together these lectures

offer a cornucopia of spiritual insights and wisdom for the present day *The World of the Senses* Rudolf Steiner, 2014-09-04 When we consider the plant world in all its greenery or the stars with their golden glory when we look at all this without forming any judgement from within ourselves but instead permit the things to reveal themselves to us then all things are transformed from what they were in the world of the senses into something entirely different something for which no word exists other than one which is taken from our very life of soul Rudolf Steiner One of Rudolf Steiner's most fundamental objectives was to show how the spiritual world connects to and penetrates the material world In doing so he was pioneering a modern form of Rosicrucianism countering traditional religious conceptions that spirit and matter are polar opposites as well as contemporary materialistic science that ignores the existence of spiritual phenomena altogether In this concise series of lectures Rudolf Steiner shows how the human senses reveal the mysterious world of the will which is at once a spiritual and physical phenomenon The senses act as a portal connecting our physical and etheric bodies with what Steiner refers to as worlds of all pervading will and all pervading wisdom He elaborates this theme giving some unexpected and delightful insights into the senses of hearing and sight and in particular how we experience colour Steiner suggests that divine spiritual beings had different intentions for the formation of physical human beings but that adversary powers caused disruption leading to a more materialized constitution He describes disorders in the connections between the human physical etheric astral and ego bodies and the ill effects of one aspect overpowering the others He gives insight into human glandular secretions and why we need to eat and digest also connected to the intervention of adversary beings Among the many other themes tackled here Rudolf Steiner describes the transformation of the human senses and organs giving special consideration to the function of the larynx which in future times will develop a special kind of reproductive power Illness and Therapy Rudolf Steiner, 2013-12-10 An external view of states of health and sickness must be augmented by what we can also know about the inner spiritual reality within the human being Rudolf Steiner In a series of nine lectures to doctors pharmacists and students Rudolf Steiner presents a wealth of medical ideas with numerous therapeutic and diagnostic insights As with his first series of lectures on medicine held a year previously *Introducing Anthroposophical Medicine* the range depth and scope of Steiner's subject matter is breathtaking Speaking at the international centre of anthroposophy the Goetheanum in Dornach Switzerland Rudolf Steiner begins by describing the interplay of physical and metaphysical aspects of the human being presenting a paradigm in which the four bodies physical etheric astral and ego or I interrelate in contrasting ways with the threefold human organism of head thorax and metabolism and with our capacities for thinking feeling and will These challenging but enlightening concepts unlock a wonderful diagnostic tool for the appraisal and understanding of patients Steiner considers the medicinal actions of various substances including silica phosphorus sulphur arsenic antimony and mercury Among numerous other subjects Rudolf Steiner discusses the methodology of medical examination the treatment of developmental irregularities the four types of ether raw food diets the I and assimilation of food

metal therapy and the actions of lead magnesium tin iron copper gold mercury and silver the use of root and herbaceous parts and flowers in medicine the rhythmic balancing process between the action of salutogenic and pathological forces and the nature of death This volume also features Rudolf Steiner's answers to questions an introductory lecture to eurythmy therapy a comprehensive introduction notes and index colour plates of Steiner's blackboard drawings and facsimiles and translations of his notes for the lectures

Michael's Mission Rudolf Steiner, 2016-03-21 This will generate a struggle covering the face of the whole earth The one and only remedy for this nonsense being made of human evolution will be the path that can lead humanity to the spirit the path of Michael which finds its continuation in the path of Christ Rudolf Steiner Speaking in the aftermath of the Great War Rudolf Steiner presents a series of extraordinary lectures on the power and mission of the Archangel Michael He paints on a broad canvas in the context of cosmic and human evolution revealing Michael's tasks in the past present and future Originally the countenance of Yahweh Michael has metamorphosed from a night spirit to a day spirit As the Countenance of Christ Michael helps us find a balance between luciferic and ahrimanic tendencies The old dualism such as good versus evil says Steiner needs to be replaced by the trinity of Lucifer Christ Ahriman Filling our heart with the Christ Impulse creates an equilibrium between the luciferic influence that imbues our head and the ahrimanic influence at work in our limbs Rudolf Steiner describes how humanity faces three dangers in the social sphere spiritual life could flow into the pit of mendacity ruled by Ahriman individual rights might descend into the pit of selfishness Lucifer and economics into cultural sickness and death Asuras In order to prevent European American culture from perishing it will be necessary to turn towards contemporary threefold social ideas Steiner also speaks about the principle of metamorphosis in connection with evolution and devolution as evident in the design of the pillars in the newly built Goetheanum Architectural styles are an expression of human evolution as can be seen in Greek temples gothic Cathedrals the Grail temple and the building at Dornach Amidst many other themes Rudolf Steiner addresses the problem of natural necessity and freedom and the abolition of the trichotomy of body soul and spirit at the Council of Constantinople in AD 869
