

Science fiction is set in the future, but it is frequently a vehicle for satirizing conditions in the present.

"Satire is a sort of glass, wherein beholders do generally discover everybody's face but their own." Jonathan Swift

Satire (n.) – A literary work in which human vice or folly is attacked through irony, derision, or wit.

Edward Brooks

Science Satire And Wit:

Science, Satire, and Wit Ralph W. Buechler, 1990 This book attempts a critical assessment of the eighteenth century German essay utilizing the journal essays of Georg Christoph Lichtenberg as a paradigm It places a socio historical and genre theoretical analysis of the eighteenth century German essay across a close reading of Lichtenberg s essays The study demonstrates that Lichtenberg s essays operate as critical communication for purposes of instruction and satire What is more such critical communication alternates with a critique of enlightenment itself Finally the methodology of Lichtenberg s essays is shown to be instrumental in developing imaginative and freely associative literary strategies
