The Technological Fix Lisa Rosner, 2013-02-01 The term technological fix should mean a fix provided by technology a solution for all of our problems from medicine and food production to the environment and business Instead technological fix has come to mean a cheap quick fix using inappropriate technology that usually creates more problems than it solves This collection sets out the distinction between a technological fix and a true technological solution Bringing together scholars from a variety of disciplines the essays trace the technological fix as it has appeared throughout the twentieth century Addressing such fixes as artificial hearts industrial agriculture and climate engineering these essays examine our need to turn to technology for solutions to all of our problems

Competition Law and Economic Inequality Jan Broulík, Katalin Cseres, 2022-12-15 The gap between the rich and poor is widening across the globe This book explores whether this major societal challenge of our time can be addressed by the means of competition law The primary goal of today s competition law is to ensure that market power does not lead to an inefficient production of goods and services Nevertheless even such efficiency oriented curbing of market power may

arguably contribute to the reduction of differences in how much people own and earn Furthermore many competition law regimes do take into account distributive considerations too The chapters investigate the relationship between competition law and economic in equality from philosophical historical and economic perspectives Their inquiries concern the conceptual foundations of competition law and doctrinal frameworks of individual jurisdictions as well as specific problems and markets As such the book provides a novel and comprehensive overview of whether and how competition law can contribute to more equality in both developed and developing countries The book is a must read for researchers public officials judges and practitioners within the competition law community It will also appeal to anyone more broadly interested in issues of inequality and economic policy Biotechnology, Risk Assessment/biosafety ,1996 Historical Essays on Meteorology, 1919-1995 James Fleming,2016-06-30

On the occasion of its 75th anniversary the American Meteorological Society engaged a number of eminent pioneers and leading practitioners to write about the fields they helped develop They were joined by several professional historians of science and technology The resulting essays constitute a substantial sampling of what has been learned since 1919 in the atmospheric sciences and services in research in education and in the private sector This volume will be of interest to weather professionals and enthusiasts historians of science and to students of science and history It will help us calibrate where we are where we have been and where we might be going as a discipline Hopefully it will inspire others to value the past and to dig into it more deeply Such attention to history is a necessary step in the maturation of a scientific discipline Interdisciplinary Perspectives on Social Sciences Georgeta Rață,2014-03-17
